[57] **CLAIM**

The ornamental design for an ice free wind speed sensor, as shown and described.

DESCRIPTION

FIG. **1** is a top plan view of the novel ice free wind speed sensor;
FIG. **2** is a typical side elevational view, all other side elevational views being identical thereof;
FIG. **3** is a bottom plan view thereof; and,
FIG. **4** is a perspective view.
The broken line showing of a signal generator housing is for illustrative purposes only and forms no part of the claimed design.
