[57] **CLAIM**

The ornamental design for a combined bed bracket and tether strap for suspending an air pump on a hospital bed, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a combined bed bracket and tether strap for suspending an air pump on a hospital bed, showing our new design, with the tether straps in closed position;
FIG. 2 is a front elevational view thereof, with the tether strap in closed position;
FIG. 3 is a side elevational view thereof, with both tether straps in open position, and the bed bracket in open position;
FIG. 4 is a top plan view thereof;
FIG. 5 is a side elevational view thereof opposite that shown in FIG. 3, with both tether straps in closed position and the bed bracket in open position;
FIG. 6 is a top plan view thereof, with both tether straps in closed position and the bed bracket in open position;
FIG. 7 is a bottom plan view thereof; and,
FIG. 8 is another perspective view thereof.
The broken line showing in FIGS. 1–8 is for illustrative purposes only and forms no part of the claimed design.
