[57] CLAIM

The ornamental design for a telescopic flashlight, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of the telescopic flashlight of the present design, the bottom view being the same; FIG. 2 is a front elevational view thereof, the rear view being the same; FIG. 3 is a left side elevational view thereof; FIG. 4 is a right side elevational view thereof; FIG. 5 is a front elevational view of the telescopic flashlight of the present design in an extended state, the rear view being the same; and, FIG. 6 is a fragmentary view showing an enlarged cross-section of the front bezel and lens of the flashlight of the present design, said cross-sectional view being common to both the extended and unextended states of the flashlight of the present design.
