[57] CLAIM

The ornamental design for a display unit for ties, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from the front and the left side of a display unit for ties, showing my new design, the perspective view from the front and right side being a mirror image thereof;
FIG. 2 is a part-sectional right side view thereof with the right side removed and taken along the line 2—2 of FIG. 1 looking in the direction of the arrows, the part-sectional left side view with the left side removed being a mirror image thereof;
FIG. 3 is a part-sectional plan view thereof with the upper part removed and taken along the line 3—3 of FIG. 1 looking in the direction of the arrows; and,
FIG. 4 is a rear view thereof.
