[57] **CLAIM**

The ornamental design for the steering wheel, as shown and described.

DESCRIPTION

FIG. 1 is an elevational front view of a steering wheel showing a new design in accordance with my invention; FIG. 2 is a side view thereof the undisclosed side top and bottom views are a mirror image; FIG. 3 is a back view thereof; FIG. 4 is an elevational front view of a second embodiment of the invention wherein the only difference is in the number of spokes; and, FIG. 5 is an elevational front view of a third embodiment of the invention wherein the only difference is in the number of spokes.

The pattern shown in the views represents a conventional material.
