[57] CLAIM

The ornamental design for a multi-purpose combination sponge topped applicator and cover for bottles, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a multi-purpose combination sponge topped applicator and cover for bottles showing my new design therefor. This view shows the applicator with the cover removed to better reveal the design features of the applicator;

FIG. 2 is a top plan view;

FIG. 3 is a bottom plan view;

FIG. 4 is a front elevational view;

FIG. 5 is a rear elevational view;

FIG. 6 is a left side elevational view, the right side elevational view being a mirror image thereof;

FIG. 7 is a perspective view of a multi-purpose combination sponge topped applicator and cover for bottles with the cover in place to illustrate the unit with its sponge applicator in storage configuration;

FIG. 8 is a front elevational view of the cover portion, the rear elevational, left side elevational and right side elevational views all being the same; this view is provided to better reveal the design details therein;

FIG. 9 is a bottom plan view;

FIG. 10 is a top plan view; and,

FIG. 11 is an exploded perspective view of the multi-purpose combination sponge topped applicator and cover for bottles showing the sponge topped applicator and the cap in vertical alignment.
