Primary Examiner—Janice E. Seeger Attorney, Agent, or Firm-Daniel R. Brown FIG. 6 is a section view, (Section A—A from FIG. 1), showing the support stand;

FIG. 7 is a side view showing the photograph holder resting on a horizontal surface;

FIG. 8 is a perspective detail of a corner grip, for convenience of illustration; and, .

FIG. 9 is a perspective view of the photograph holder in use. The broken line in FIG. 7 is not part of the photograph holder or similar article sought to be patented and is shown to illustrate a horizontal surface on which the photograph holder or similar article is resting.

The broken lines in FIG. 9 are not part of the photograph holder or similar article sought to be patented, they illustrate the position of a photograph or similar article within the photograph holder or similar article, as it would be in normal use.

The front horizontal planar member, as viewed in FIG. 1, is made from a transparent material such that the photograph or similar article, which is positioned behind the transparent material, can be viewed.
