### [57] CLAIM

The ornamental design for a suspended instrumentation system, as shown and described.

### DESCRIPTION

FIG. 1 is a front view of the system;  
FIG. 2 is top view of the system;  
FIG. 3 is a side view of the system, the opposite side view  
being a mirror image thereof;  
FIG. 4 is a rear view of the system;  
FIG. 5 is a bottom view of the system; and,  
FIG. 6 is a front view of another version of the system.  
The suspension rod is shown broken away to indicate  
indeterminate length.
