[57] **CLAIM**

The ornamental design for an angled electrical connector housing, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of an angled electrical connector housing according to my new design;

FIG. **2** is a top, front angled view of the angled electrical connector housing of my new design shown in FIG. **1;**

FIG. **3** is a bottom plan view of the angled electrical connector housing of my new design shown in FIGS. **1** and **2;**

FIG. **4** is a top plan view of the angled electrical connector housing of my new design shown in FIGS. **1–3;**

FIG. **5** is a left side elevational view of the angled electrical connector housing of my new design shown in FIGS. **1–4;** and,

FIG. **6** is a right side elevational view of the angled electrical connector housing of my new design shown in FIGS. **1–5.**

The broken line showing of environment in FIGS. **1** and **3–6** is for illustrative purposes only and forms no part of the claimed design. The angled electrical connector of the claimed design can be either an inlet (male connector) or a receptacle (female connector).
