[57] CLAIM

The ornamental design for a clear plastic measuring/dispensing spout, as shown and described.

DESCRIPTION

FIG. 1 is a top front perspective view showing in an open position my new measuring/dispensing spout design; FIG. 2 is a right side elevation view of the measuring/dispensing spout in FIG. 1; FIG. 3 is a front elevation view thereof; FIG. 4 is a top plan view thereof; FIG. 5 is a bottom plan view thereof; FIG. 6 is top front perspective view showing in an open position a second embodiment of my new measuring/dispensing spout design; FIG. 7 is a right side elevation view of the measuring/dispensing spout in FIG. 6; FIG. 8 is a front elevation view thereof; FIG. 9 is a top plan view thereof; FIG. 10 is a bottom plan view thereof; FIG. 11 is a top front perspective view showing in an open position a third embodiment of my new measuring/dispensing spout design; FIG. 12 is a right side elevation view of the measuring/dispensing spout shown in FIG. 11; FIG. 13 is a front elevation view thereof; FIG. 14 is a top plan view thereof; and, FIG. 15 is a bottom plan view thereof. The broken line showing of a portion of a box-like container in FIGS. 1, 6 and 11 is for illustrative purposes only and forms no part of the claimed design.
