[57] **CLAIM**  
The ornamental design for a bowl-shaped chandelier, as shown and described.

**DESCRIPTION**

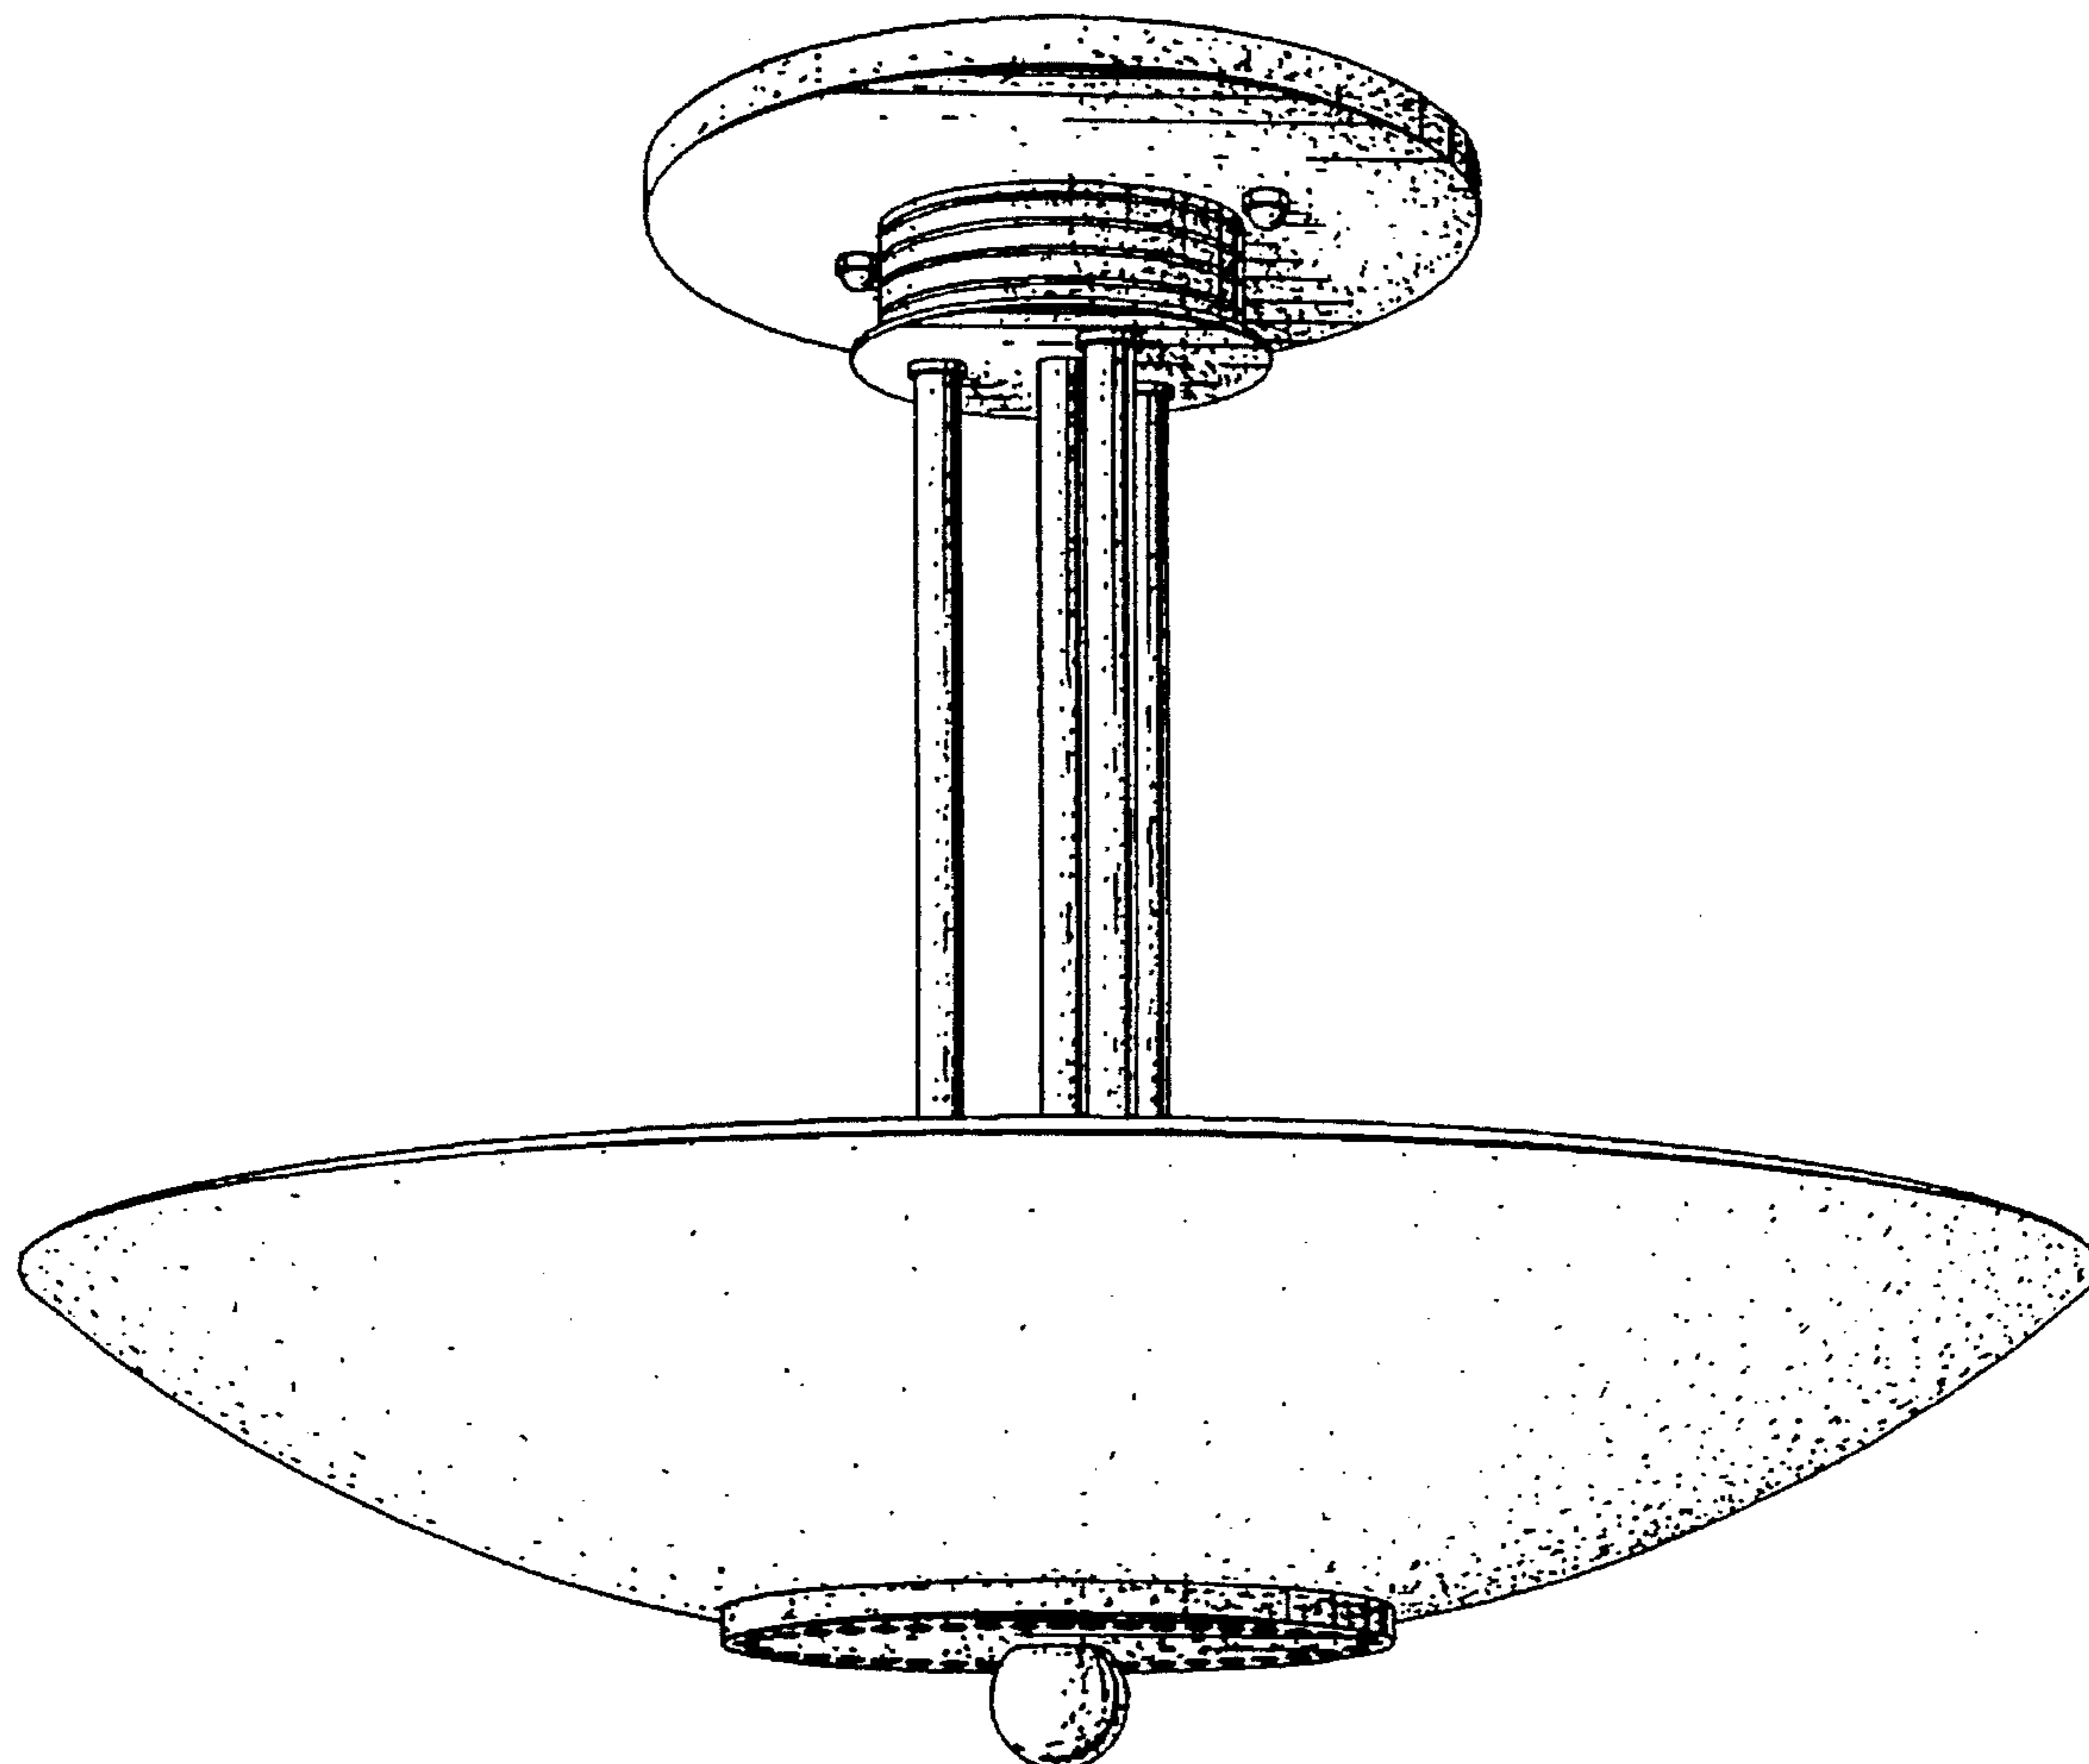

FIG. 1 is a perspective view of a bowl-shaped chandelier showing my new design;  
FIG. 2 is an elevational side view of FIG. 1;  
FIG. 3 is a bottom view of FIG. 1; and,  
FIG. 4 is the elevational view rotated 90° from FIG. 2.  
A glass bowl is mounted on a stem comprising a mounting in the shape of a disk which mounts on the ceiling with three decorative half-spherical screw heads, to which is attached a reel-shaped element. From said element, four steel columns descend in the following manner: one column is in the middle, and three are placed equidistant around the circumference of the reel-shaped element. A metal disk and a small metal sphere are consecutively mounted at the bottom of the glass bowl. Small decorative holes are located around the circumference of said metal disk.
