[57] **CLAIM**

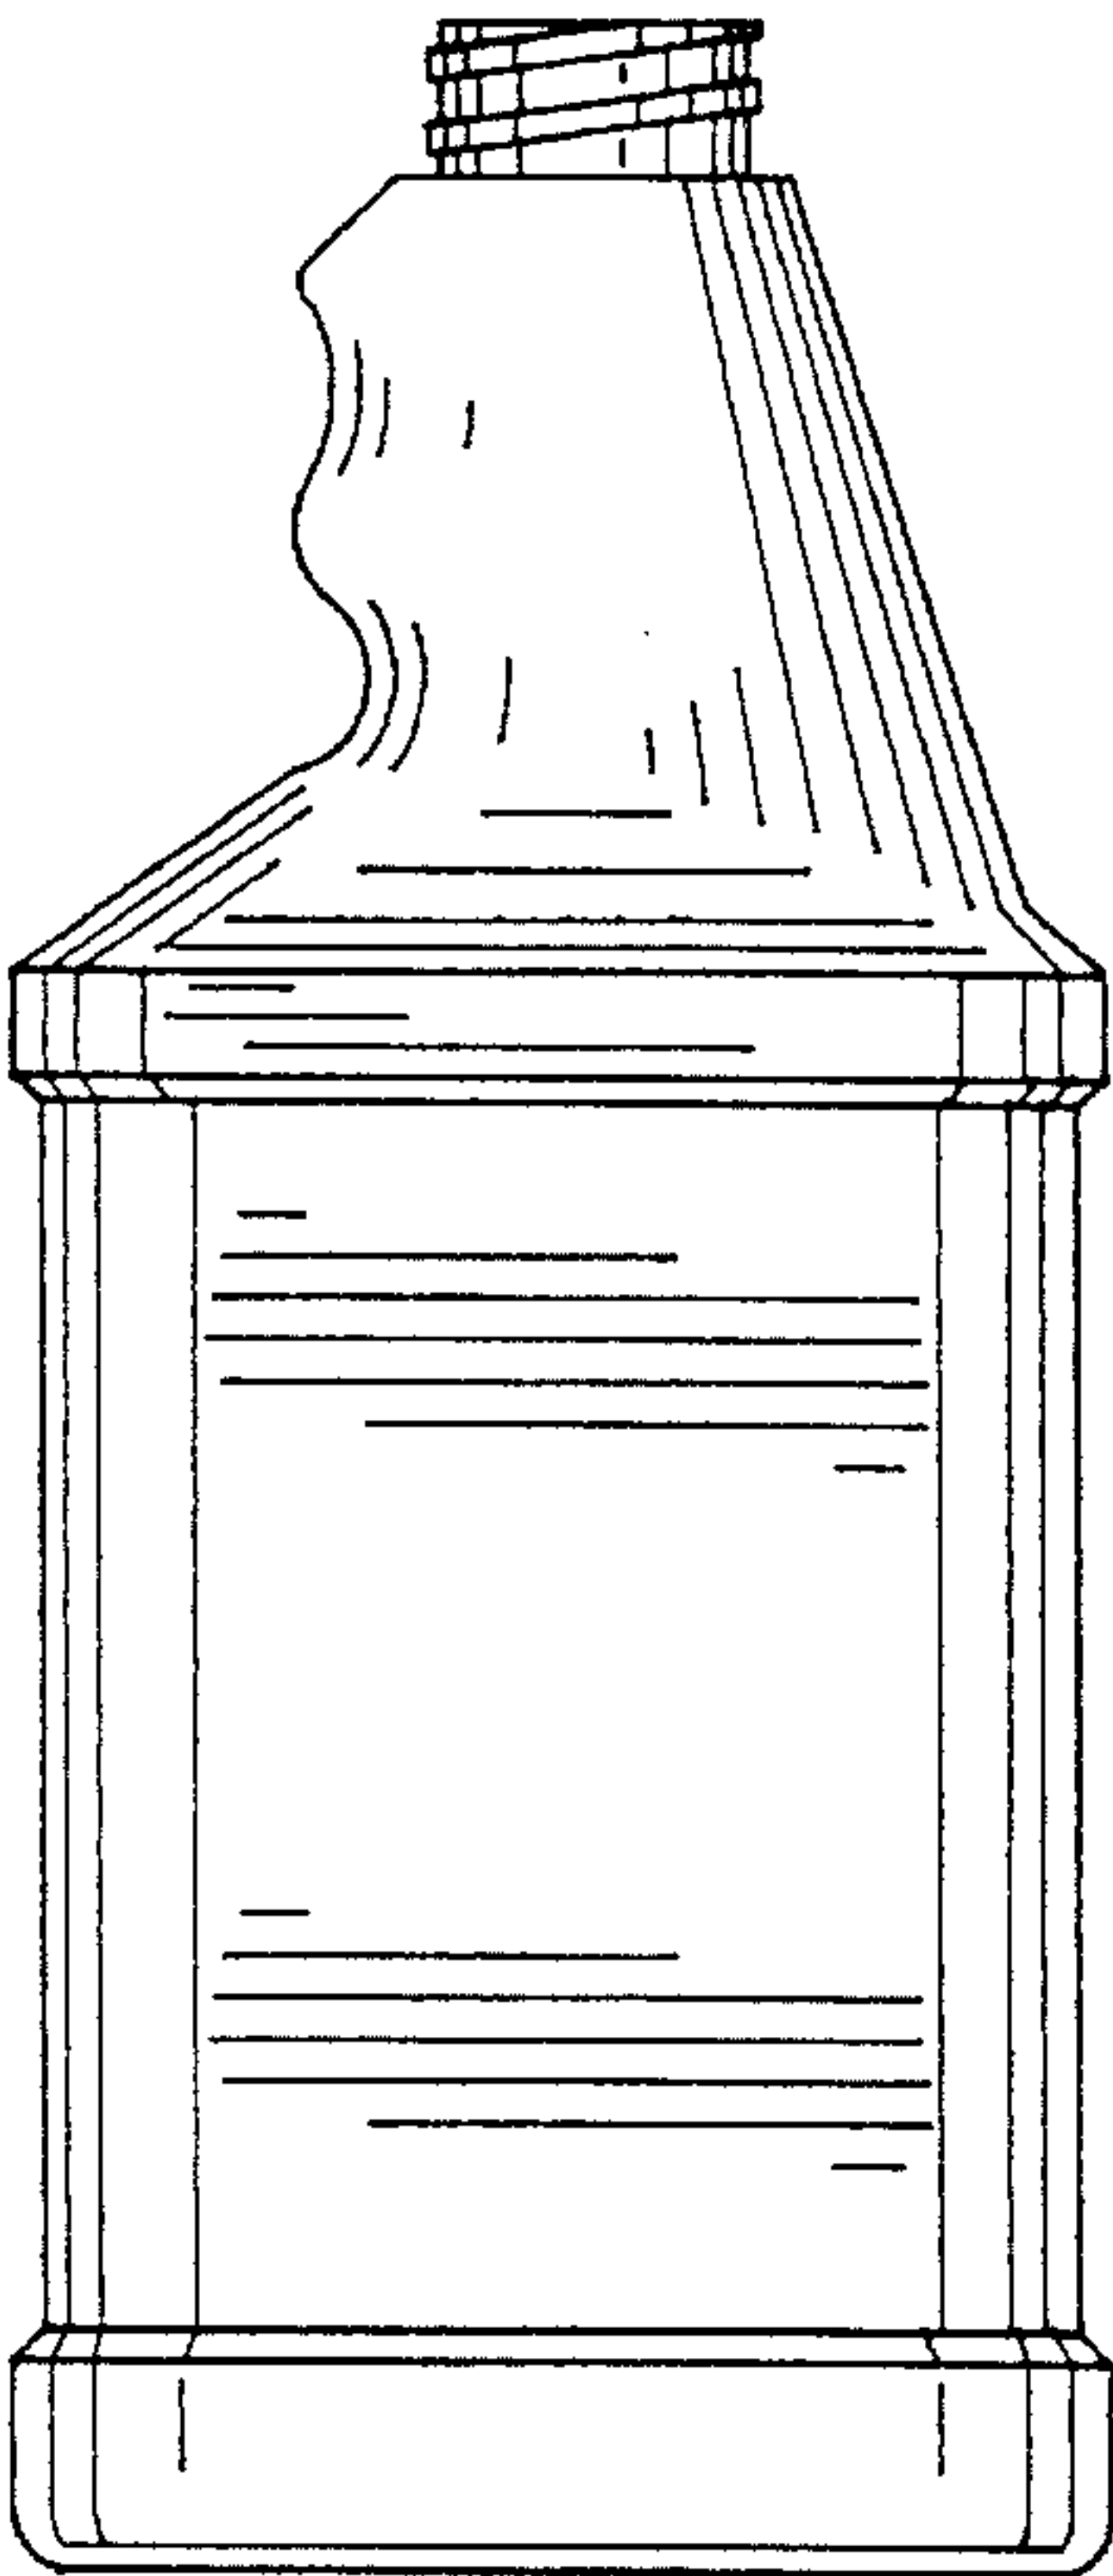

The ornamental design for a plastic container for use with a hand operated sprayer, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the plastic container for use with a hand operated sprayer showing my new design; FIG. 2 is a side elevational view of the plastic for container use with a hand operated sprayer the opposite side being a mirror image thereof; FIG. 3 is a front elevational view; FIG. 4 is a rear elevational view; FIG. 5 is a top plan view; FIG. 6 is a front elevational view of a modified form of the plastic container for use with a hand operated sprayer; FIG. 7 is a side elevational view of the modified plastic container for use with a hand operated sprayer, the opposite side being a mirror image thereof; FIG. 8 is a rear view of the modified form of the plastic container for use with a hand operated sprayer; and, FIG. 9 is a top plan view.

The broken lines showing a trigger sprayer in FIG. 1 are for illustrative purposes only and do not form part of the claimed design. The bottom of both embodiments of the plastic container for use with a hand operated sprayer are flat and unornamented.
