## [57] CLAIM

The ornamental design for a high performance mass storage subsystem, as shown and described.

## DESCRIPTION

FIG. 1 is a front view of the high performance mass storage subsystem showing our new design wherein the three detachable units are shown in a horizontal stacking position; FIG. 2 is a front view of the high performance mass storage subsystem showing our new design wherein the three detachable units are shown in a vertical stacking position; FIG. 3 is a right side view of the high performance mass storage subsystem showing our new design; FIG. 4 is a left side view of the high performance mass storage subsystem showing our new design; FIG. 5 is a bottom view of our new design; FIG. 6 is a top view of the high performance mass storage subsystem showing our new design; FIG. 7 is a rear view of our new design; FIG. 8 is a front perspective view of the high performance mass storage subsystem showing our new design wherein the three detachable units are shown in a horizontal stacking position; and, FIG. 9 is a rear perspective view of the high performance mass storage subsystem showing our new design wherein the three detachable units are shown in a horizontal stacking position.
