[57] **CLAIM**

The ornamental design for a golf club head surveying instrument, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a preferred embodiment of the golf club head surveying instrument of the invention; FIG. 2 is a top plan view of the golf club head surveying instrument of FIG. 1; FIG. 3 is a right side elevational view of the golf club head surveying instrument of FIG. 1 looking toward the golf club wing nut clamping assembly; FIG. 4 is a left side elevational view of the golf club head surveying instrument of FIG. 1 looking toward the rear of the golf club wing nut clamping assembly; FIG. 5 is a rear elevational view of the golf club head surveying instrument; FIG. 6 is a front view of the golf club head surveying instrument; and, FIG. 7 is a right side elevational view of the golf club head surveying instrument similar to FIG. 3, but showing a modification wherein the triangular pointer and block assembly has been replaced by a protractor for indicating loft angle of a golf club being surveyed.
