## [57] CLAIM

The ornamental design for a glass display case, as shown and described.

### DESCRIPTION

FIG. 1 is a front perspective view of a glass display case according to a first preferred embodiment of my novel design;  
FIG. 2 is a front perspective view of a glass display case according to a second preferred embodiment of my novel design;  
FIG. 3 is a front perspective view of a glass display case according to a third preferred embodiment of my novel design;  
FIG. 4 is a front perspective view of a glass display case according to a fourth preferred embodiment of my novel design;  
FIG. 5 is a left side view of the glass display case according to the first preferred embodiment, and the right side view of this embodiment is a mirror image of the left side view;  
FIG. 6 is a right side view of the glass display case according to the second preferred embodiment, and the left side view of this embodiment is a mirror image of the right side view;  
FIG. 7 is a right side view of the glass display case according to the third preferred embodiment, and the left side view of this embodiment is a mirror image of the right side view;  
FIG. 8 is a left side view of the glass display case according to the fourth preferred embodiment;  
FIG. 9 is a top view of the glass display case according to the first preferred embodiment;  
FIG. 10 is a top view of the glass display case according to the second preferred embodiment;  
FIG. 11 is a top view of the glass display case according to the third preferred embodiment; and,  
FIG. 12 is a top view of the glass display case according to the fourth preferred embodiment.  
The bottom is plain and unornamented and not part of the claimed design.
