[57] **CLAIM**

The ornamental design for a neurological tool for testing nerve sensitivity, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a neurological tool for testing nerve sensitivity, with the wheel guard closed, showing the new design;

FIG. **2** is a right side view of a neurological tool for testing nerve sensitivity showing the new design;

FIG. **3** is a back view of a neurological tool for testing nerve sensitivity showing the new design;

FIG. **4** is a left side view of a neurological tool for testing nerve sensitivity showing the new design;

FIG. **5** is a top view of a neurological tool for testing nerve sensitivity showing the new design;

FIG. **6** is a bottom view of a neurological tool for testing nerve sensitivity showing the new design;

FIG. **7** is a front view of a neurological tool for testing nerve sensitivity, with the wheel guard open, showing the new design; and,

FIG. **8** is a perspective view of a neurological tool for testing nerve sensitivity showing the new design.
