[57] CLAIM

The ornamental design for a automobile position indicator, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of one embodiment of a automobile position indicator showing my new design, the rear elevational view being the mirror image and the upper portion being broken to show indeterminate length; FIG. 2 is a front elevational view of another embodiment of a vehicle positioning device showing my new design, the rear elevational view being a mirror image and the upper portions being broken to show indeterminate length; FIG. 3 is a side view of the embodiments shown in FIG. 2, the side views of the FIG. 1 and 4 embodiments being substantially the same; and, FIG. 4 is a front elevational view of another embodiment of an automobile position indicator for a garage, the rear view being a mirror image and the upper portion being broken away to show indeterminate length. The broken line showing of environment structure in FIGS. 1, 2, 3, and 4 and a stuffed toy animal in FIG. 4 is for illustrative purposes only and forms no part of the claimed design.
