[57] CLAIM

The ornamental design for a liquid filled photoglobe, as shown and described.

DESCRIPTION

FIG. 1 is a left side isometric perspective view of the liquid filled photoglobe of the present invention, the right side isometric perspective view being a mirror image thereof; FIG. 2 is a front side perspective view of FIG. 1; FIG. 3 is a left side elevation view thereof, the right side elevation view being a mirror image thereof; FIG. 4 is a top plan view of FIG. 1; FIG. 5 is a bottom plan view of FIG. 1; and, FIG. 6 is a front side perspective view looking upwards from the bottom of FIG. 1, the back side perspective view looking upwards from the bottom being a mirror image thereof.

The broken lines showing the photograph contained within the sleeve inside the liquid photoglobe is for illustrative purposes only and forms no part of the claimed design.

The cross hatch designation for the liquid contained within the photoglobe is not shown in the drawings for purposes of clarity in the understanding of the invention.

The curvature of the globe and the inner contained liquid contribute to the ornamental appearance of the claimed design.
