[57] CLAIM

The ornamental design for a computer cabinet with extending speakers, shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the computer cabinet in the normal operating position with the display screen opened; FIG. 2 is a perspective view of the computer cabinet in the stored position with the display screen closed; FIG. 3 is a front view of the computer cabinet in the normal operating position with the display screen open; FIG. 4 is a rear view of the computer cabinet in the normal operating position with the display screen open; FIG. 5 is a left side view of the computer cabinet in the normal operating position with the display screen open; FIG. 6 is a front view of the computer cabinet in the normal operating position with the display closed; FIG. 7 is a rear view of the computer cabinet in the stored position with the display screen closed; FIG. 8 is a left side view of the computer cabinet in the stored position with the display screen closed; and, FIG. 9 is a top view of the computer cabinet in the stored position with the display screen closed.

The speaker screens are partially shown in the figures for ease of illustration only and they are understood to continue uniformly across each of the indicated surfaces.

The right side view of the computer cabinet is a mirror image of the left side view, and the bottom view is plain and unornamented.
