[57] **CLAIM**

The ornamental design for a combination display rack and rolled goods, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a combination display rack and rolled goods showing a first embodiment of my new design encompassing a pair of racks disposed on opposite walls;

FIG. 2 is an enlarged top plan view of a combination display rack and rolled goods showing a second embodiment of my new design encompassing a single rack disposed on one wall, which is the only difference from the first embodiment;

FIG. 3 is a further enlarged front and right side perspective view thereof;

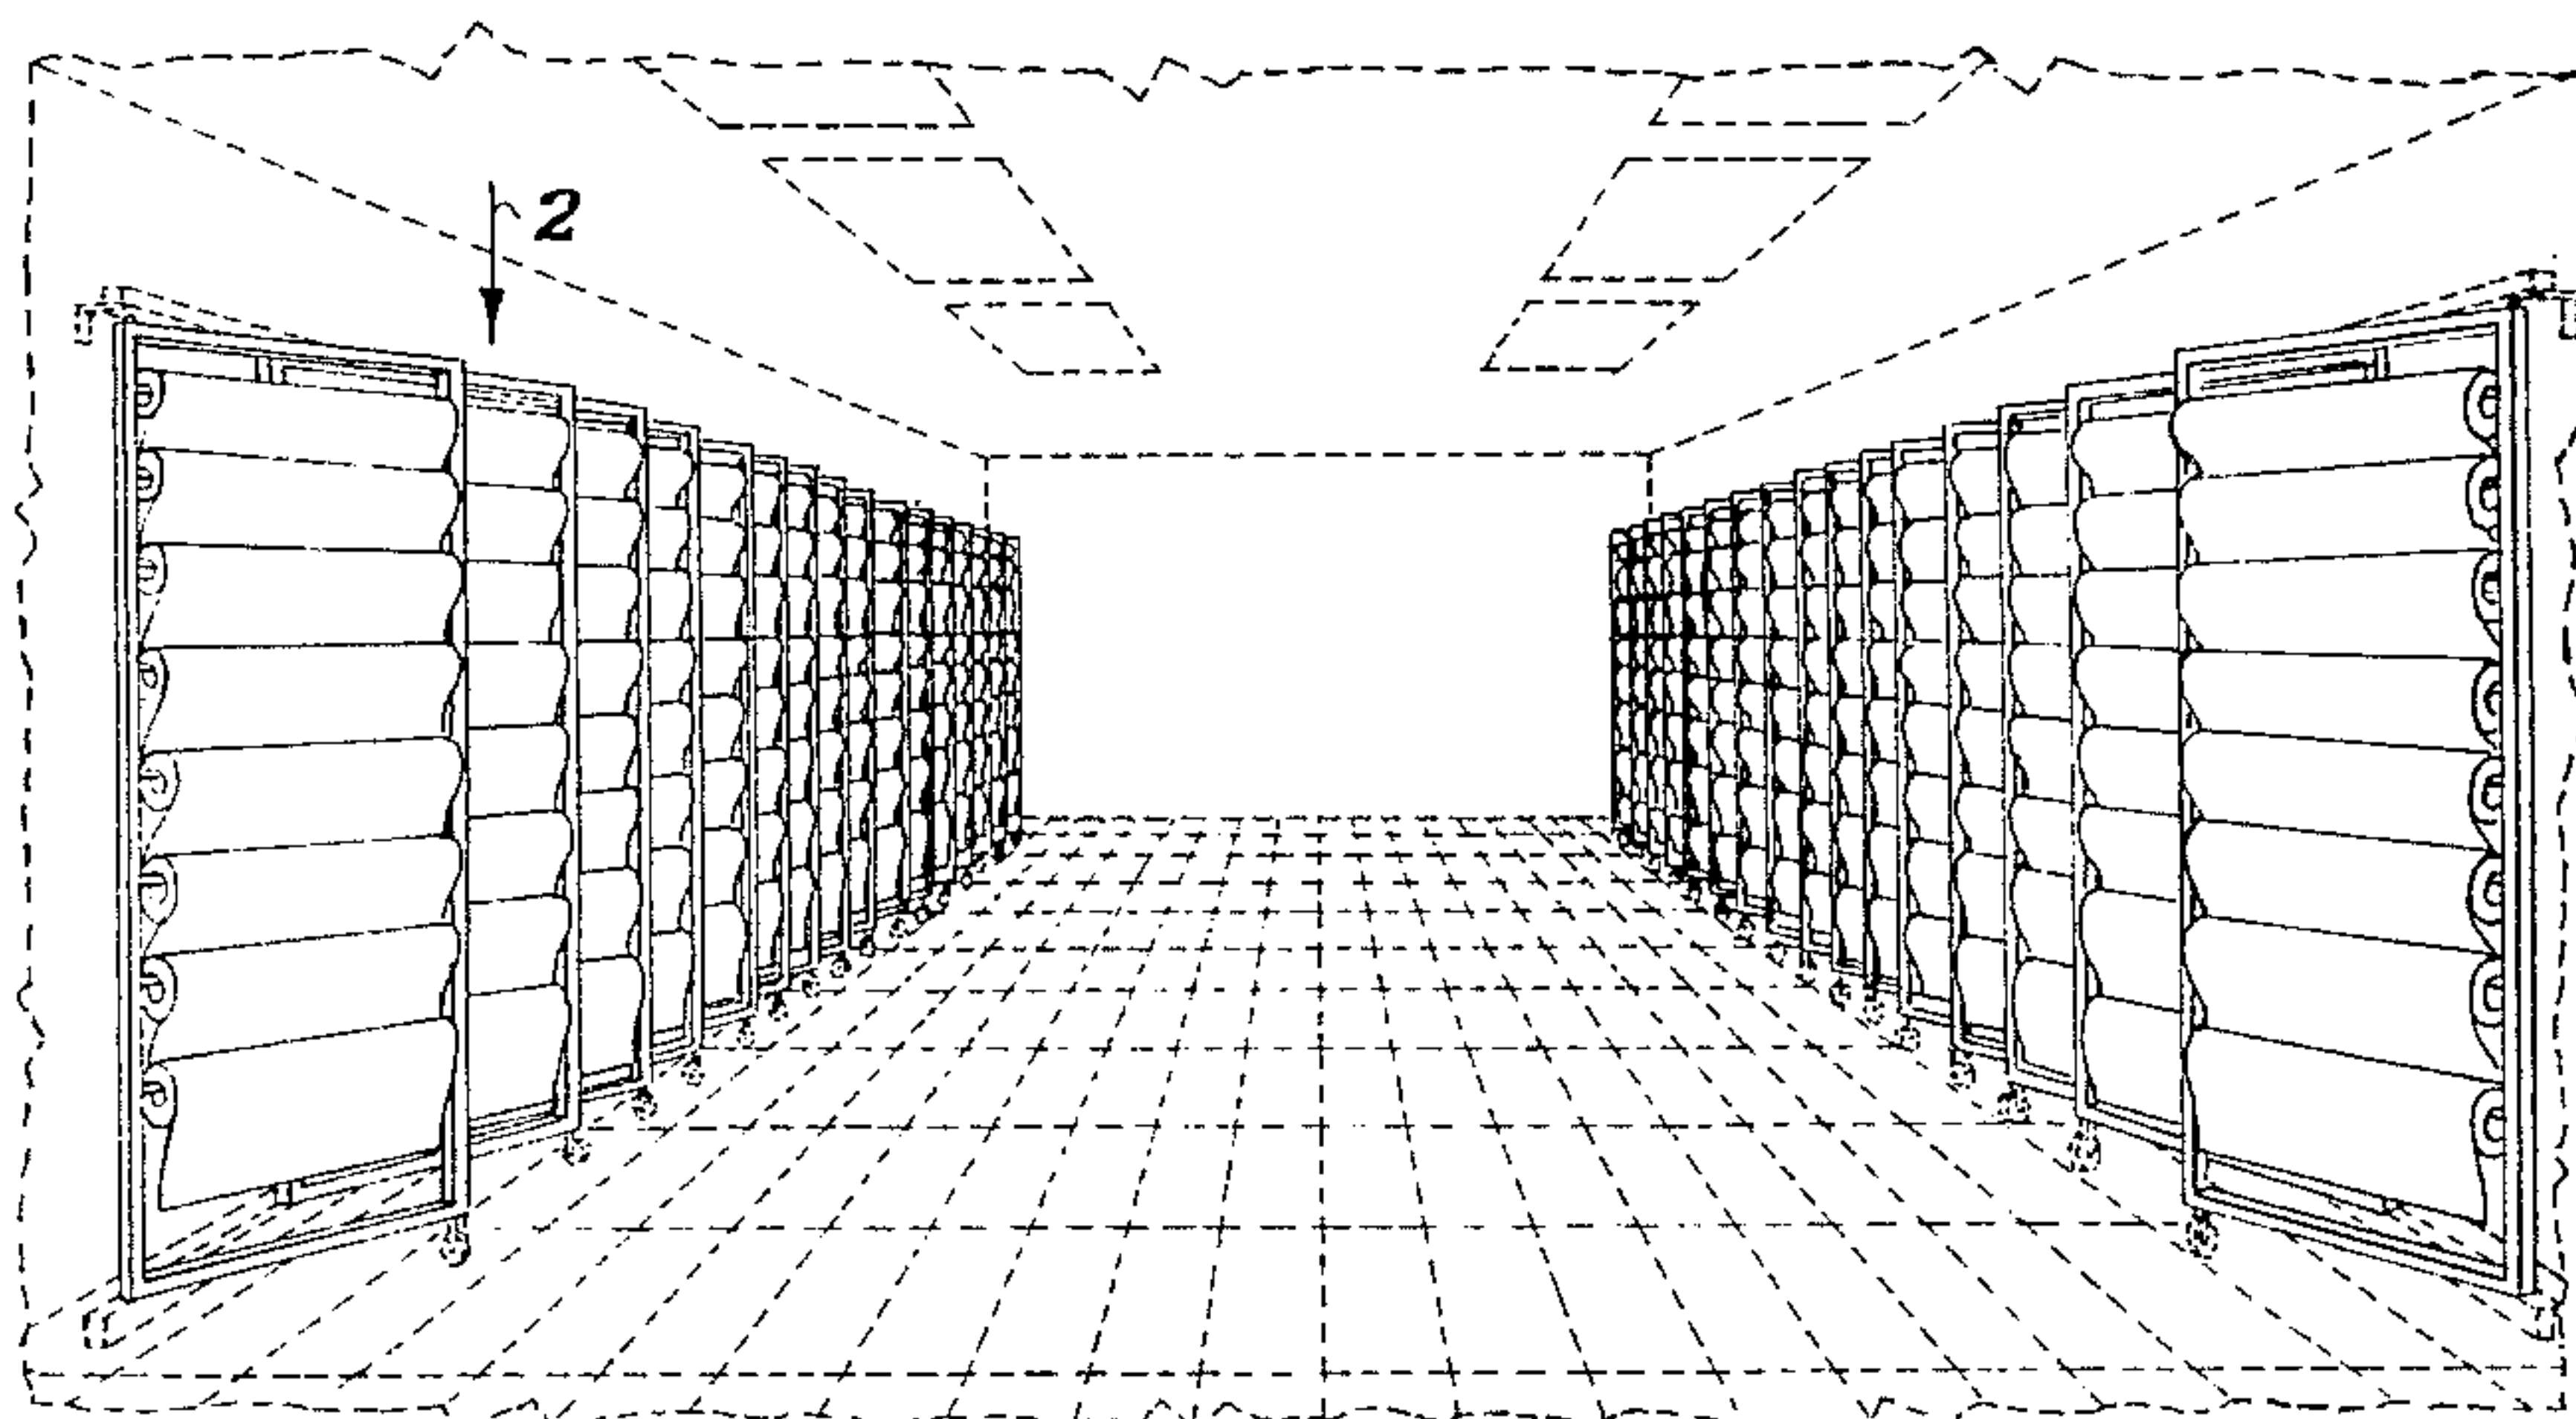

FIG. 4 is a further enlarged top plan view of one end portion thereof, with several of the components swung into alternate positions; and,

FIG. 5 is a further enlarged front elevational view of one end thereof, with several of the components swung into alternate positions.

The broken-line disclosure of walls, ceiling, floor and human form in the views are for illustrative purposes only and form no part of the claimed design.
