CLAIM

The ornamental design for a training device for inhaler, as shown.

DESCRIPTION

FIG. 1 is a front perspective view of the training device for an inhaler, the inhaler being shown with the protective cap removed;

FIG. 2 is a view of the front of the box portion of the training device, which has been enlarged for ease of illustration;

FIG. 3 is a back view of the box portion of the training device shown in FIG. 2;

FIG. 4 is a left side view of the box portion of the training device shown in FIG. 2;

FIG. 5 is a right side view of the box portion of the training device shown in FIG. 2;

FIG. 6 is a top view of the box portion of the training device shown in FIG. 2;

FIG. 7 is a bottom view of the box portion of the training device shown in FIG. 2;

FIG. 8 is a side view of the inhaler portion of the training device shown in FIG. 1, which has been enlarged for ease of illustration;

FIG. 9 is another side view of the inhaler portion of the training device shown in FIG. 8;

FIG. 10 is another side elevational view of the inhaler portion of the training device shown in FIG. 8;

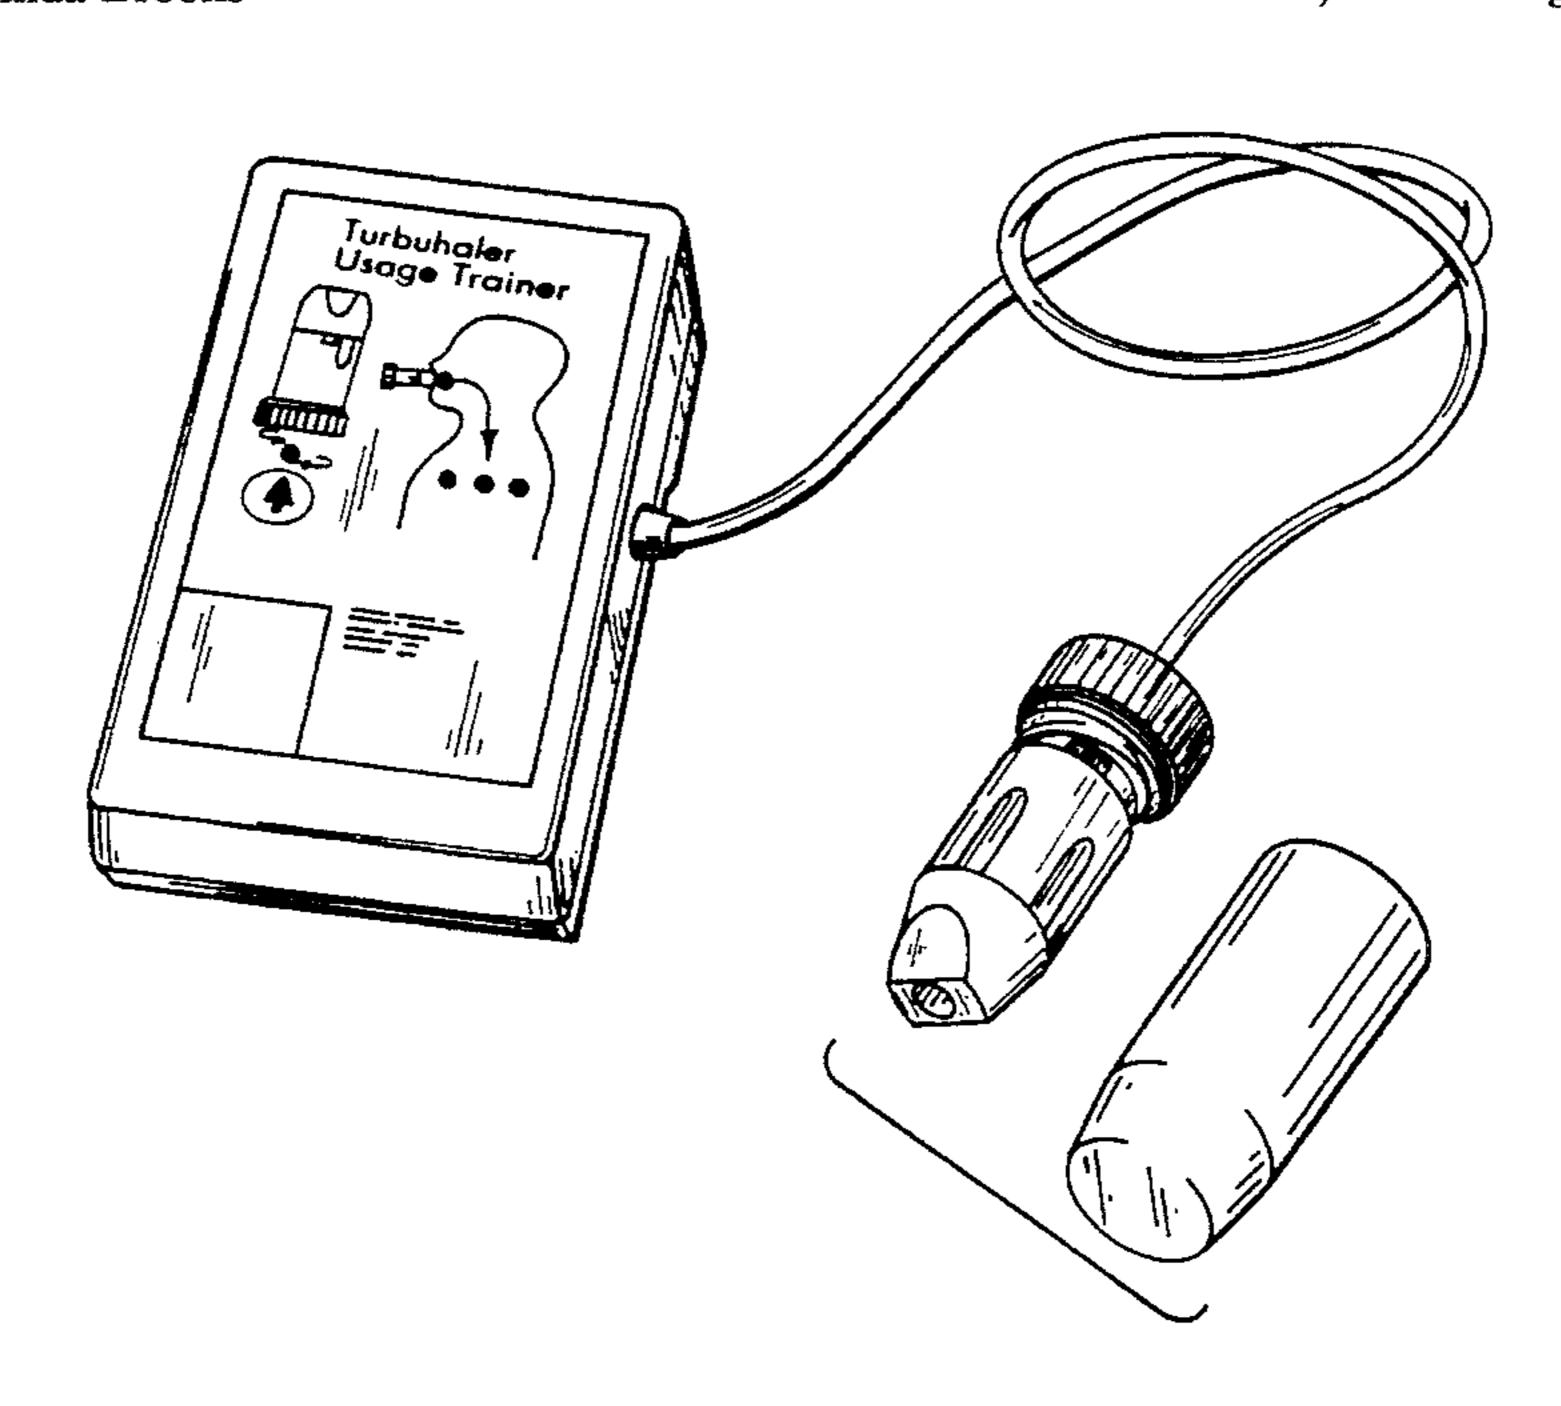

FIG. 11 is another side view of the inhaler portion of the training device shown in FIG. 8;

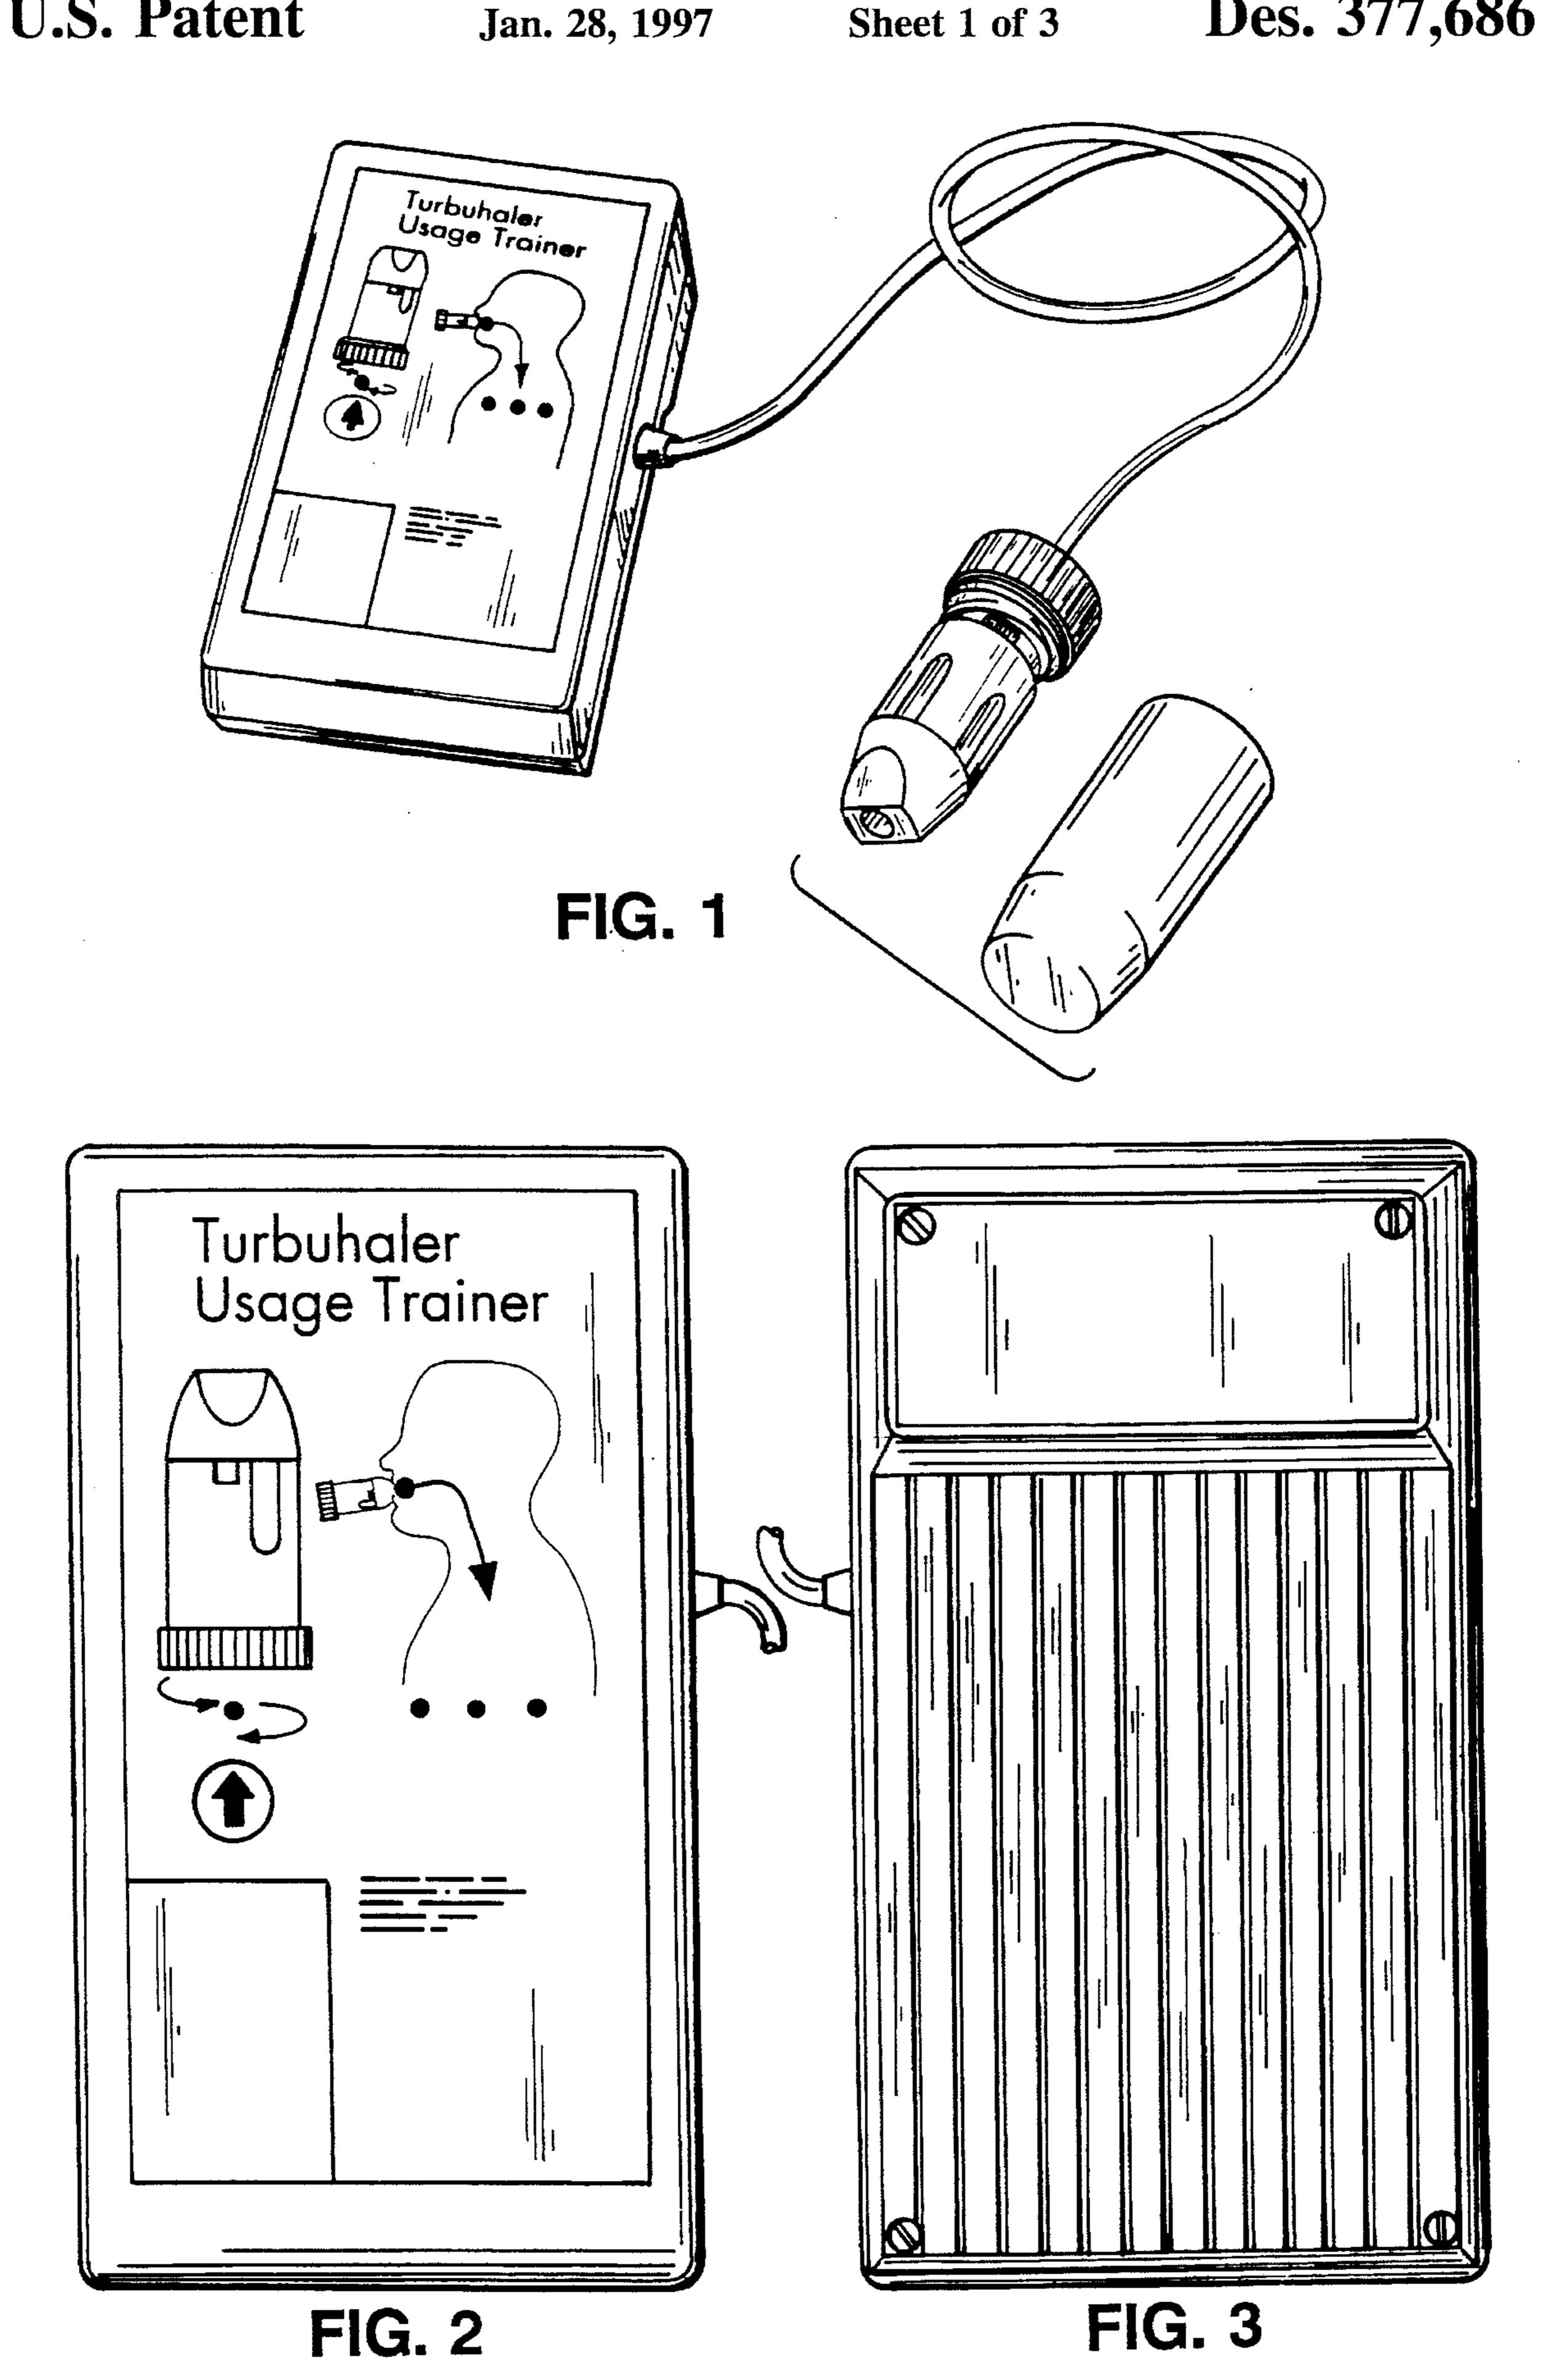

FIG. 12 is a top view of the inhaler portion of the training device shown in FIG. 1 with the protective cap removed, which has been enlarged for ease of illustration;

FIG. 13 is a bottom view of the inhaler portion of the training device shown in FIG. 12; and,

FIG. 14 is a side view of the protective cap shown in FIG. 1, which has been enlarged for ease of illustration.
