[57] CLAIM

The ornamental design for a tie for concrete forming system, as shown and described.

#### DESCRIPTION

FIG. 1 is a perspective view of the tie for a concrete forming system showing my new design;

FIG. 2 is a top elevational view thereof, the bottom elevational view being a mirror image thereof;

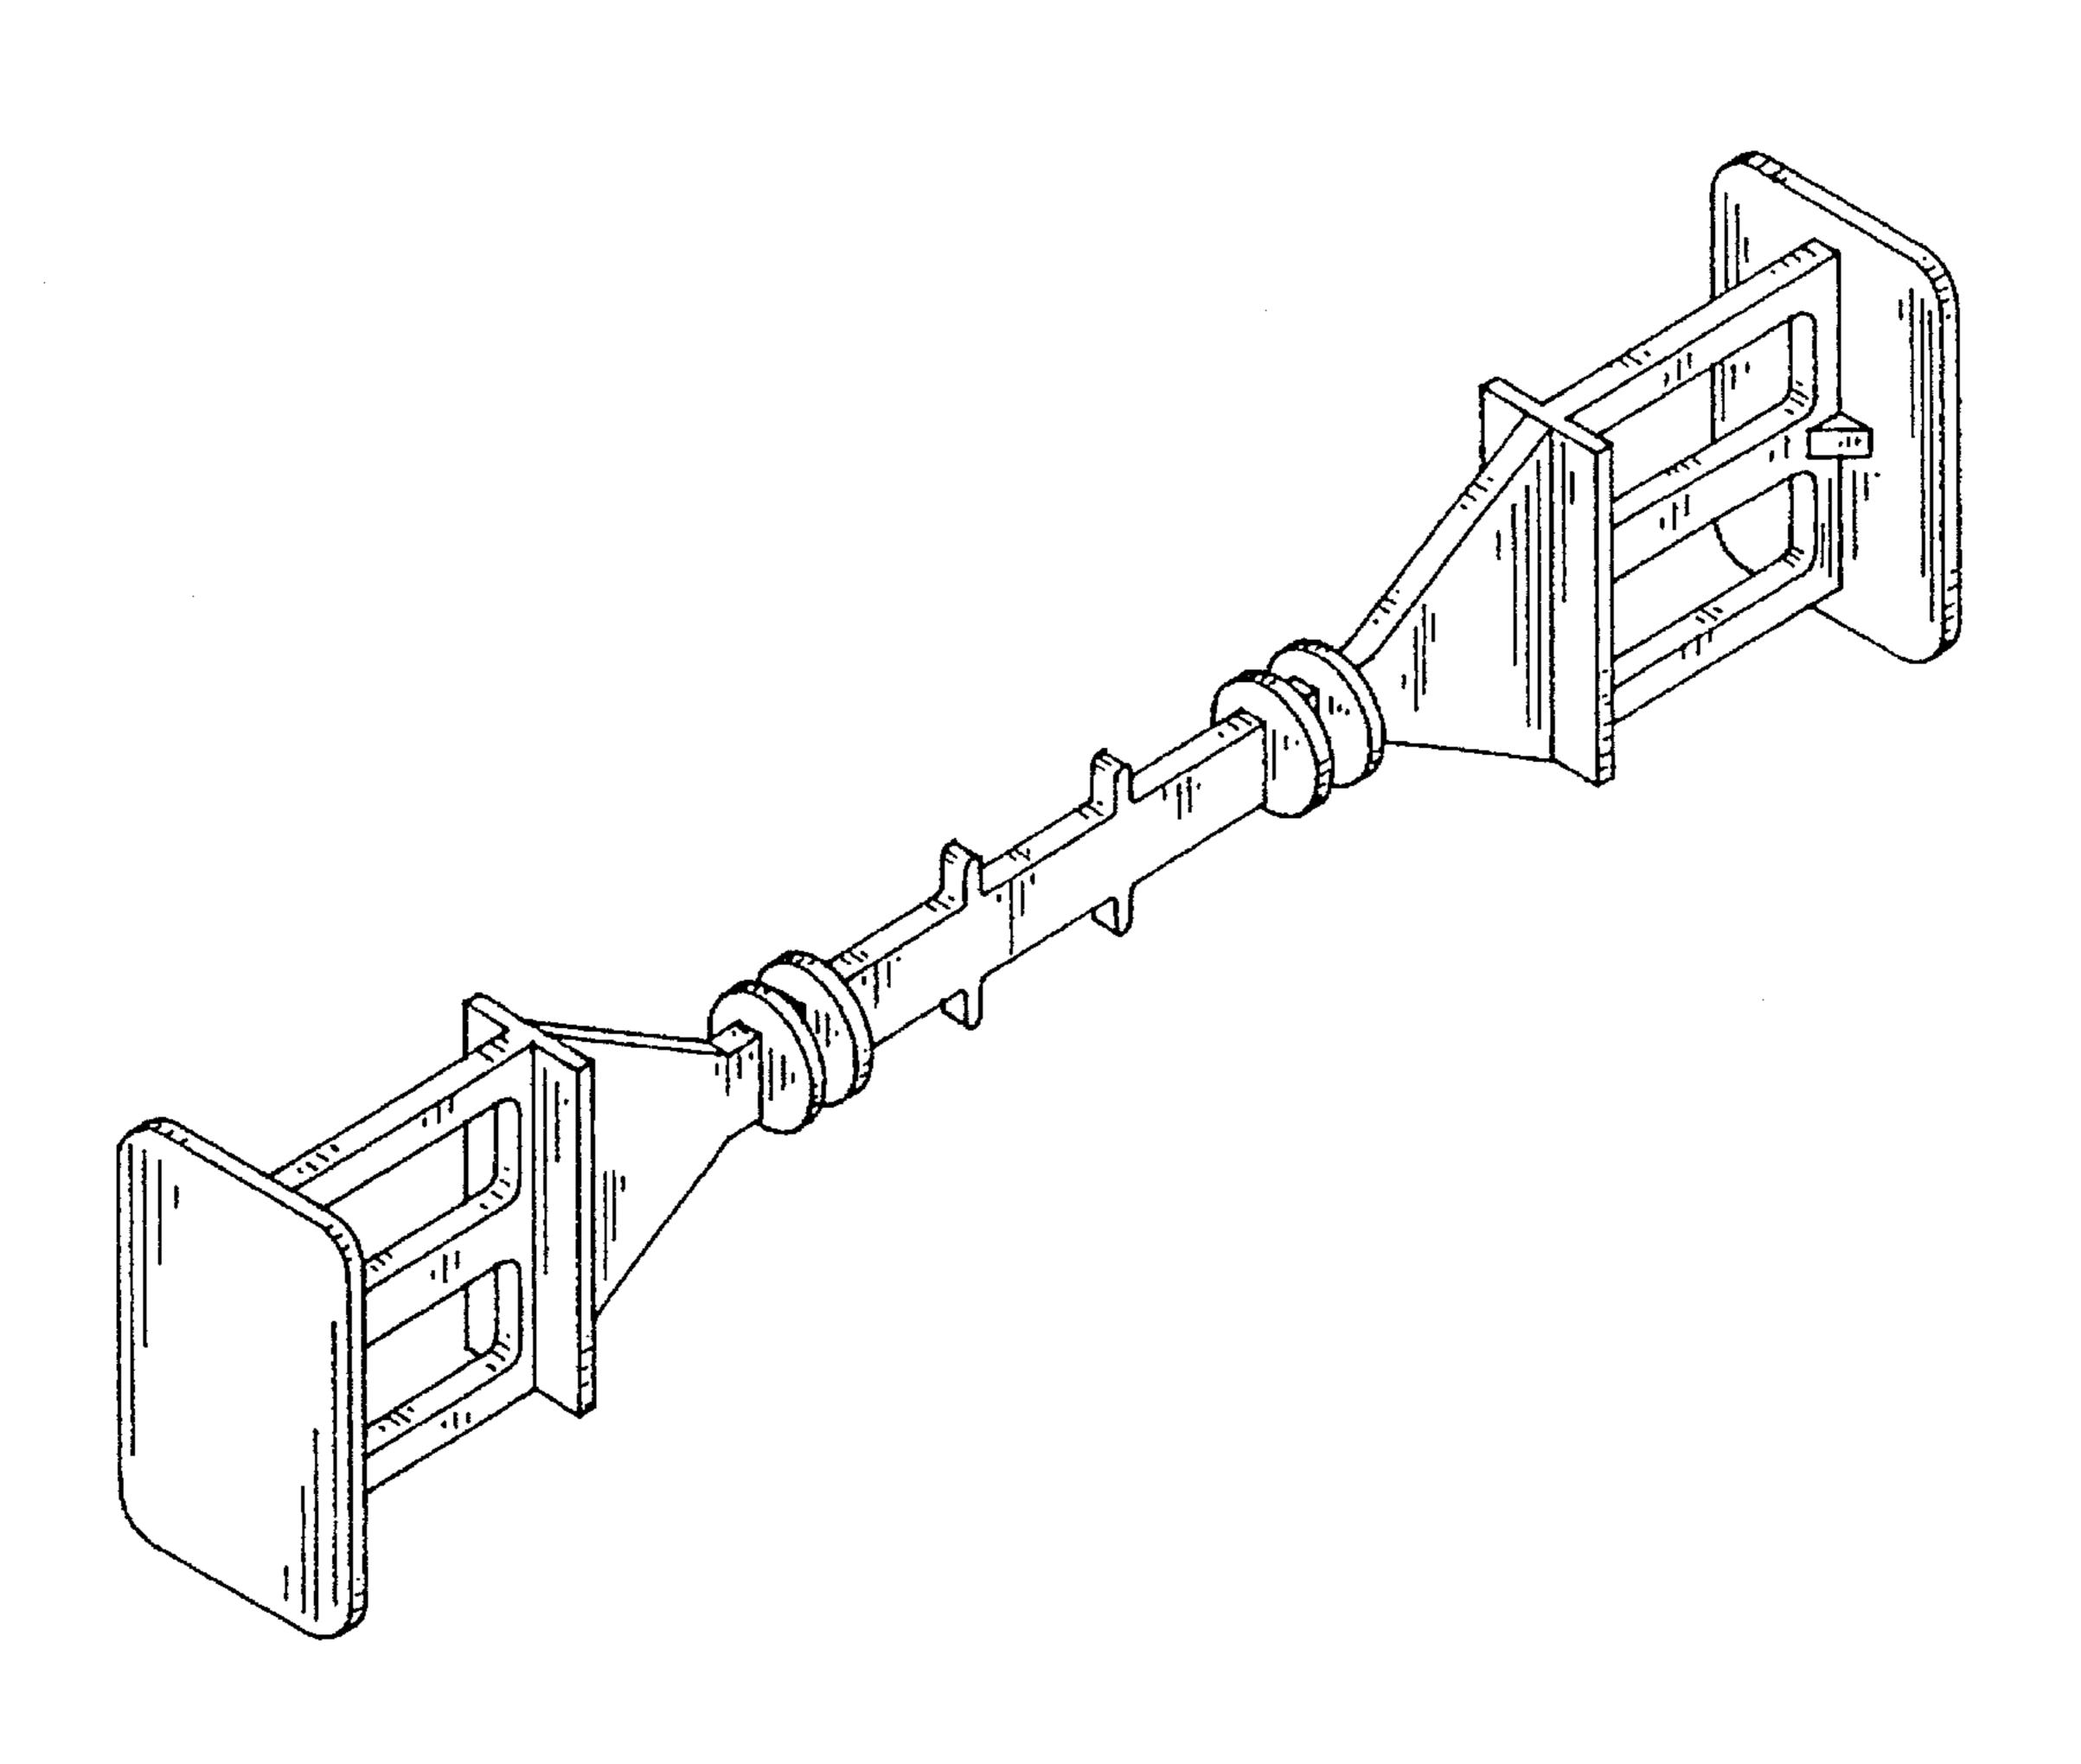

FIG. 3 is a front elevational view, the rear elevational view being a mirror image thereof;

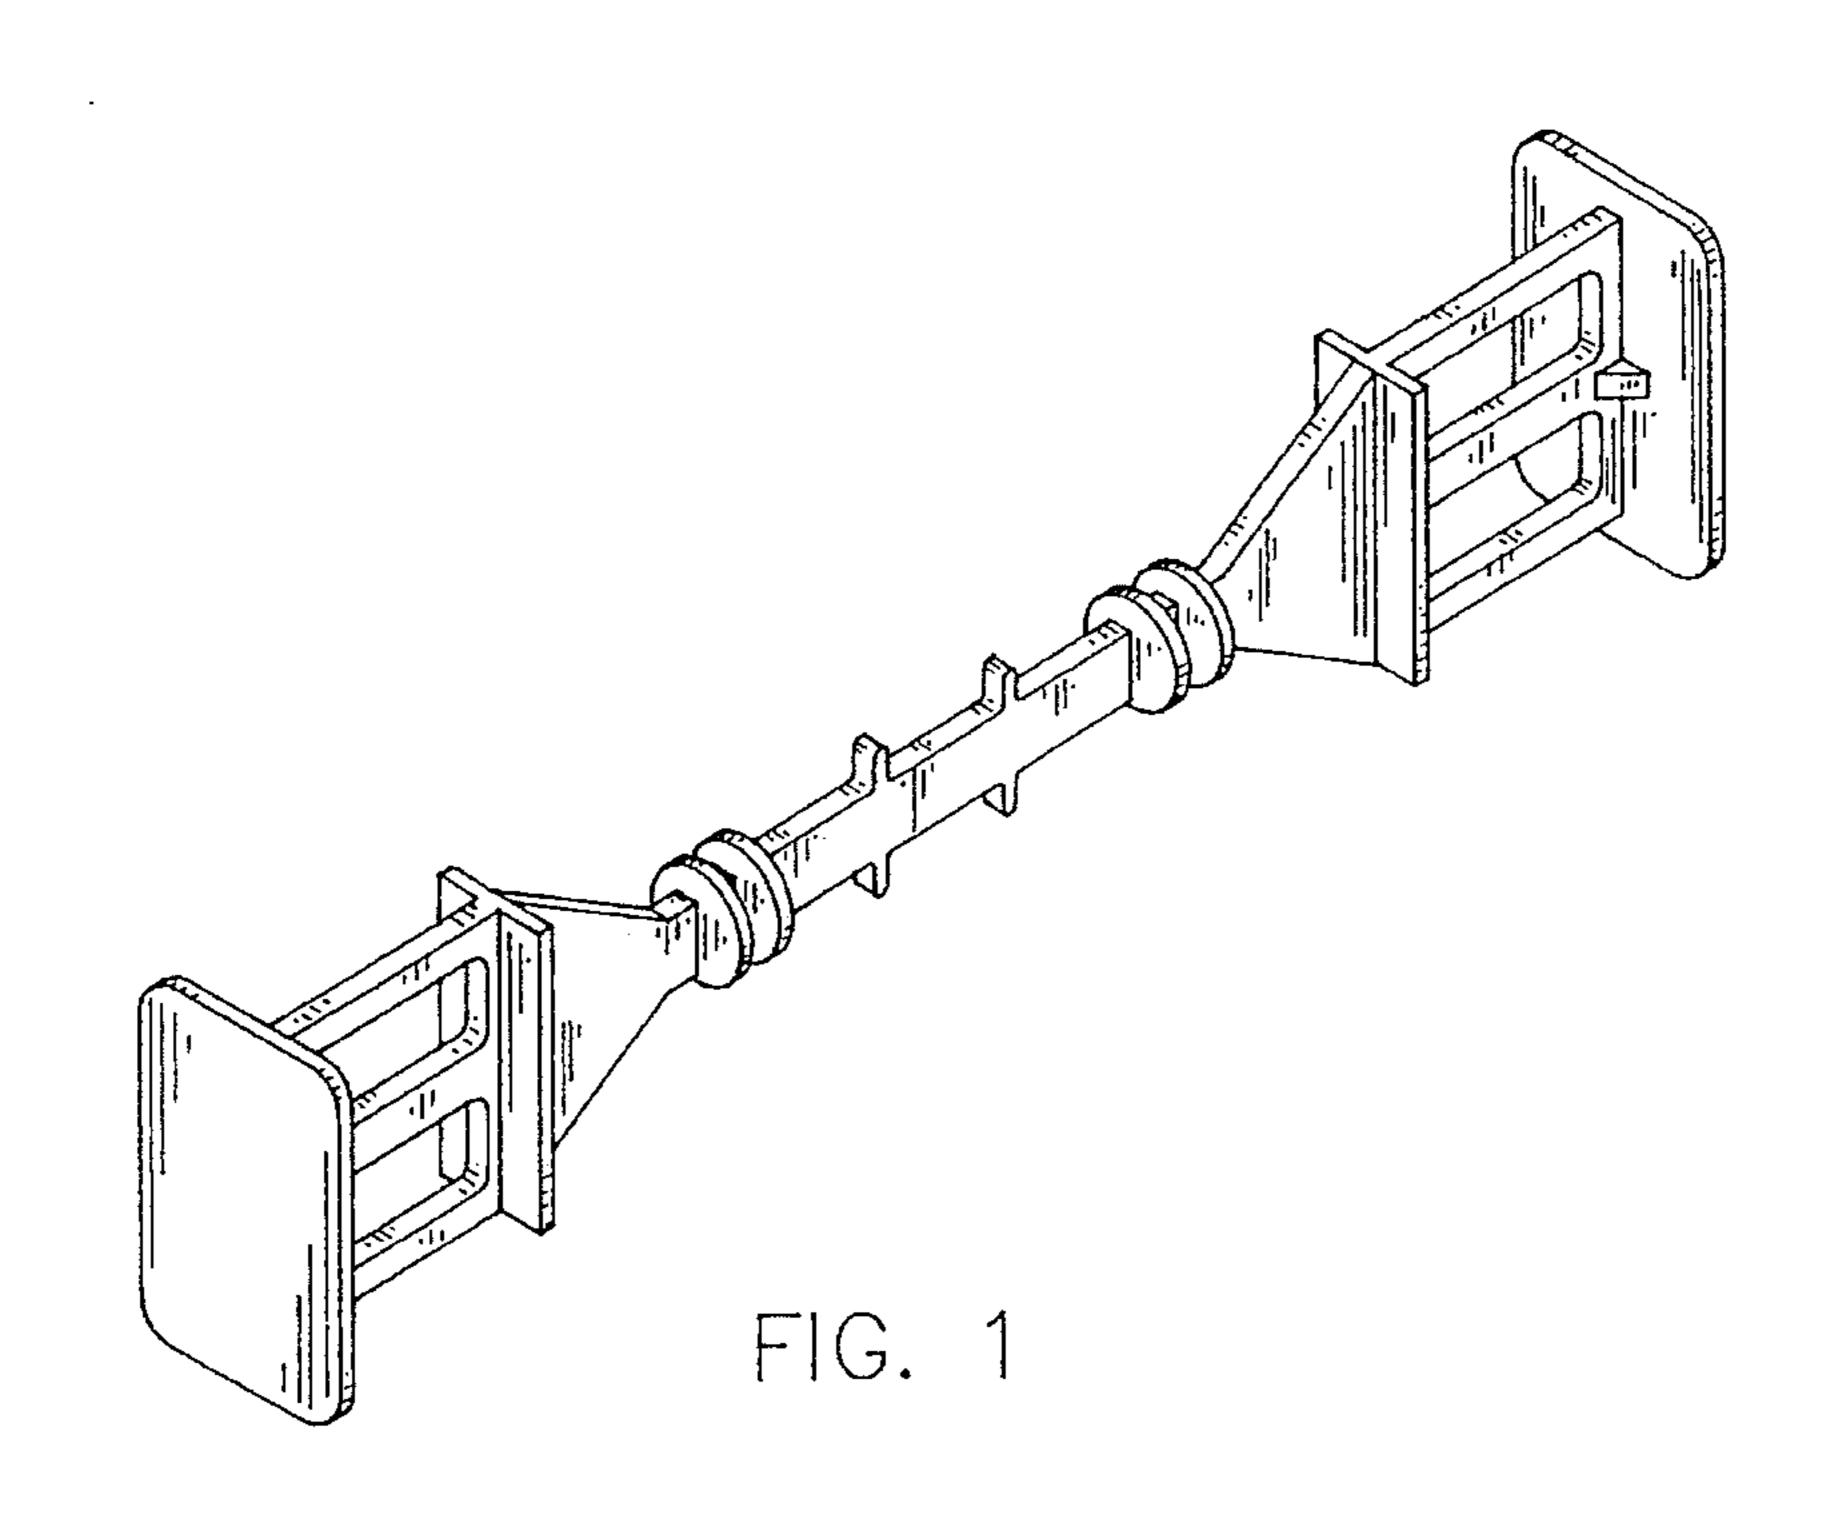

FIG. 4 is an elevational view taken from the left end of FIG. 3, the right end elevational view being a mirror image thereof;

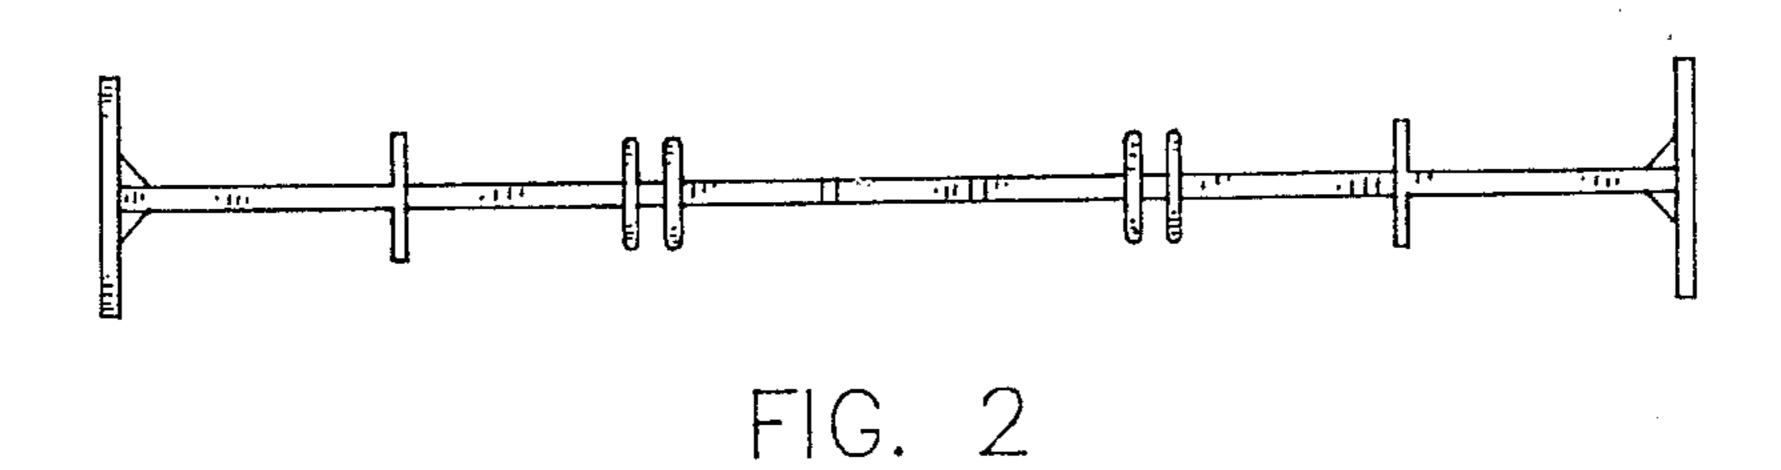

FIG. 5 is a perspective view of a second embodiment of the tie for concrete forming systems showing my new design; FIG. 6 is a top elevational view of the embodiment of FIG. 5, the bottom elevational view being a mirror image thereof; FIG. 7 is a front elevational view of the embodiment of FIG. 5, the rear elevational view being a mirror image thereof; and,

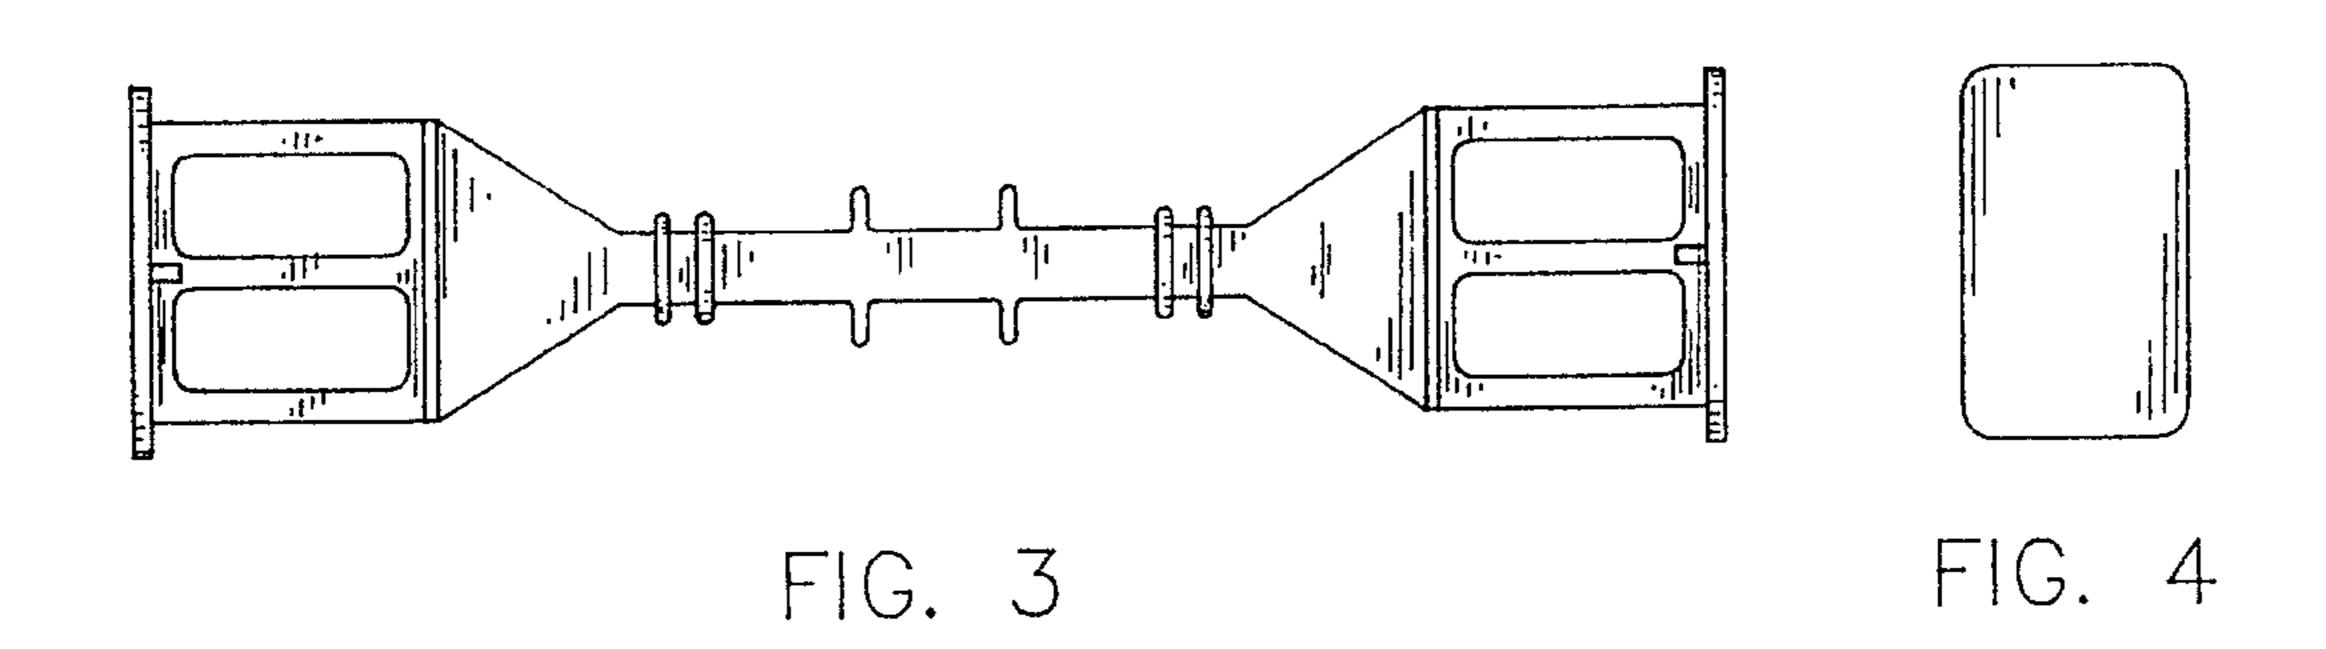

FIG. 8 is an elevational view taken from the left end of FIG. 7, the right end elevational view being a mirror image thereof.
