[57] **CLAIM**

The ornamental design for a window dressing, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view of a window dressing in accordance with a first embodiment of the invention shown

partially covering a window which is shown in phantom; FIG. 2 is a fragmentary isometric view of the first embodiment of the invention;

FIG. 3 is an isometric view of the first embodiment of the invention shown with the slats of the window dressing in the open condition, such that the window would be visible, and the slats are rotated by 90° from the closed position of FIG. 1 to be compact;

FIG. 4 is an isometric view of a window dressing in accordance with a second embodiment of the invention shown partially covering a window which is shown in phantom;

FIG. 5 is a fragmentary isometric view of the second embodiment of the invention;

FIG. 6 is an isometric view of the second embodiment of the invention shown with the slats of the window dressing in the open condition, such that the window would be visible, and the slats are rotated by 90° from the closed position of FIG. 4 to be compact;

FIG. 7 is an isometric view of a window dressing in accordance with a third embodiment of the invention shown partially covering a window which is shown in phantom;

FIG. 8 is a fragmentary isometric view of the third embodiment of the invention; and,

FIG. 9 is an isometric view of the third embodiment of the invention shown with the slats of the window dressing in the open condition, such that the window would be visible, and the slats are rotated by 90° from the closed position of FIG. 7 to be compact.

The broken line showing of a valance, window, and window sills in FIGS. 1, 4, and 7, is for illustrative purposes only and forms no part of the claimed design.
