FIG. 1 is a rear perspective view of a holder for a portable computing device;
FIG. 2 is a top plan view thereof;
FIG. 3 is a side elevational view thereof;
FIG. 4 is a rear elevational view thereof;
FIG. 5 is a front elevational view thereof;
FIG. 6 is a bottom plan view thereof;
FIG. 7 is a front perspective view thereof, showing the invention in a partially open position;
FIG. 8 is a rear perspective thereof, showing the invention in a partially open position; and,
FIG. 9 is a front elevational view of the partially open structure of FIG. 7.

The holder for portable computing device as shown herein is adapted for use in a fully closed position (as in FIG. 1) or in a fully open position. One example of a partially open position is illustrated in FIGS. 7 and 8.
