### [57] CLAIM

The ornamental design for a rear portion of a Personal Computer Memory Card Industry Association (PCMCIA) cable connector, as shown and described.

### DESCRIPTION

FIG. 1 is a top, front and right side perspective with the connector in the unlocked position;

FIG. 2 is a bottom, front and left side perspective with the connector in the unlocked position;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a top plan view with the connector in the unlocked position;

FIG. 8 is a bottom plan view with the connector in the unlocked position;

FIG. 9 is a top, front and right side perspective with the connector in the locked position;

FIG. 10 is a bottom, front and left side perspective with the connector in the locked position;

FIG. 11 is a top plan view with the connector in the locked position; and,

FIG. 12 is a bottom plan view with the connector in the locked position.

The broken line shown is included for the purpose of illustrating environmental structure only and forms no part of the claimed design.
