CLAIM [57]

The ornamental design for a positive latching and delatching connector for electrical conductors, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a positive latching and delatching connector for electrical conductors showing my new design, wherein a handle assembly is disposed in a first position;

FIG. 2 is a perspective view thereof, wherein the handle assembly is disposed in a second position;

FIG. 3 is a perspective view of a housing thereof;

FIG. 4 is a rear view of the housing;

FIG. 5 is a top view of the housing;

FIG. 6 is a front view of the housing;

FIG. 7 is a right side view of the housing, which is a mirror image of the left side not shown;

FIG. 8 is a perspective view of the handle assembly;

FIG. 9 is a front view of the handle assembly;

FIG. 10 is a right side view of the handle assembly, which is a mirror image of the left side thereof not shown;

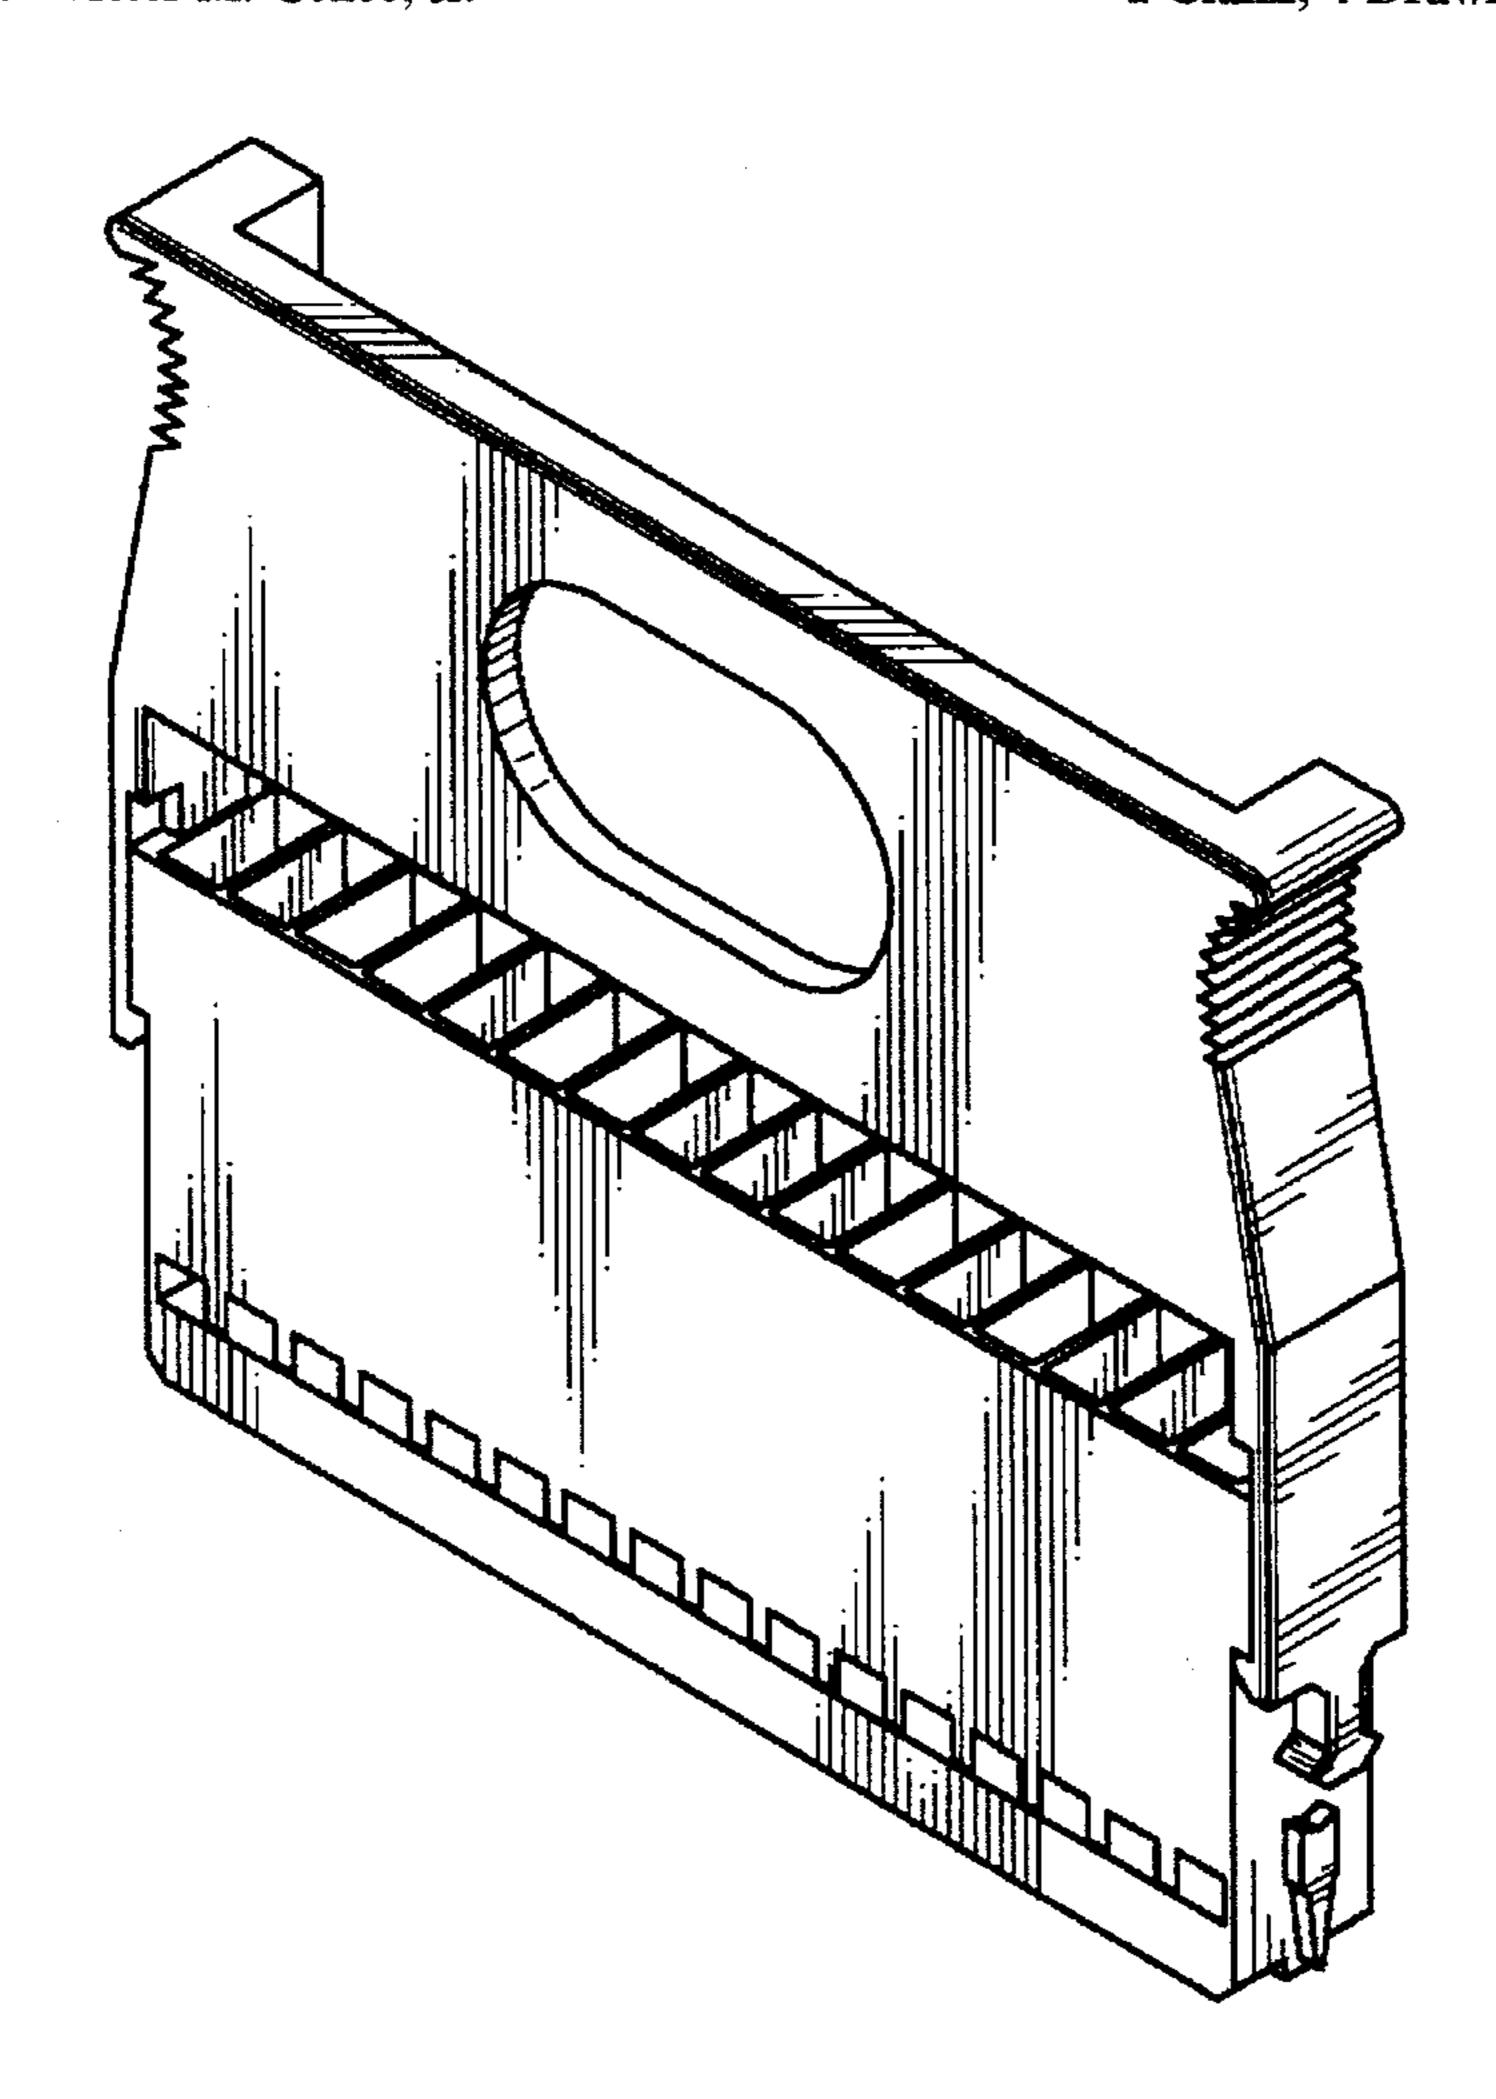

FIG. 11 is a top view of the handle assembly;

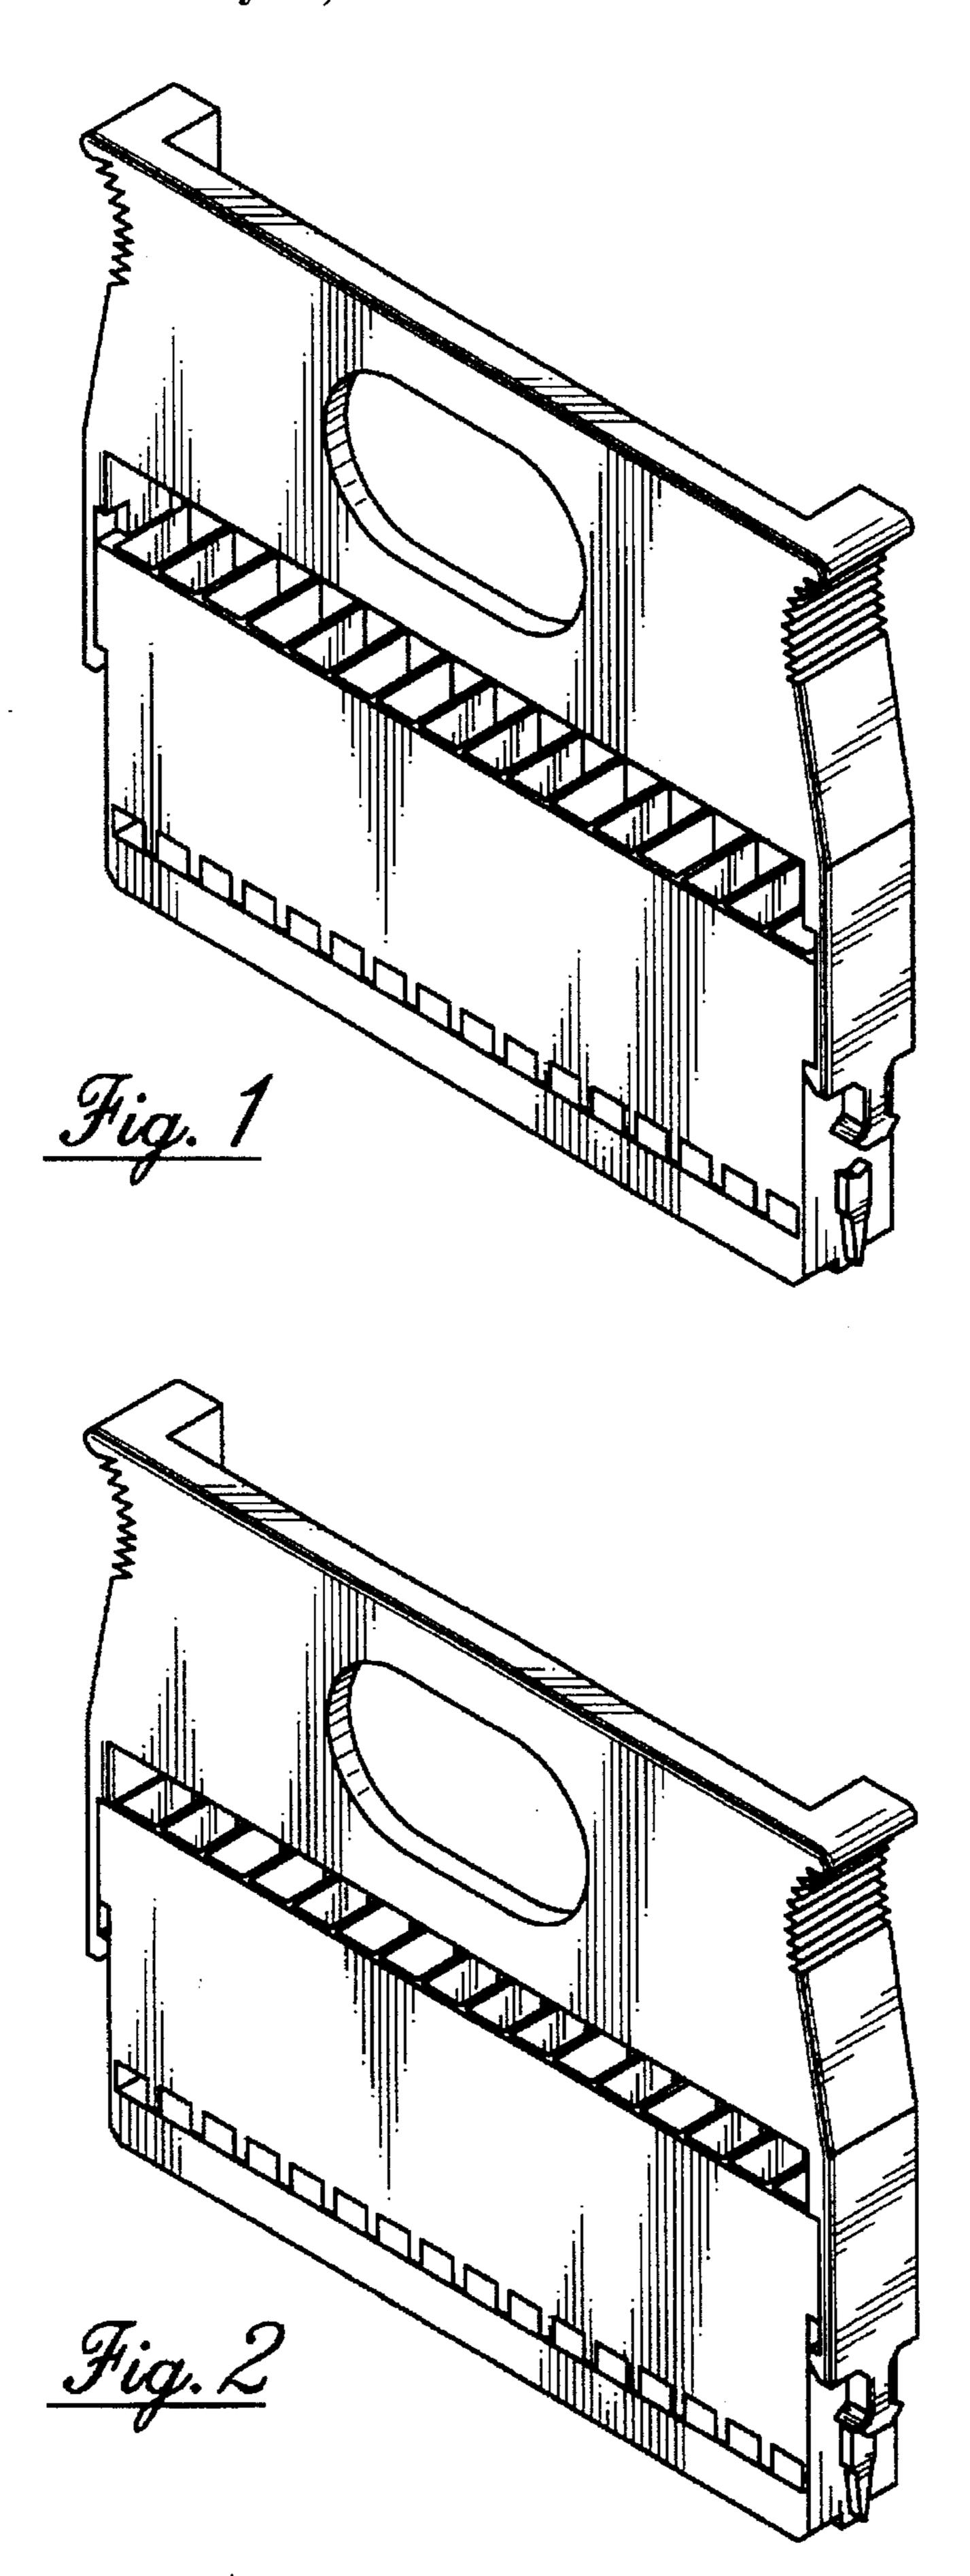

FIG. 12 is a rear view of the handle assembly; and,

FIG. 13 is a bottom view of the handle assembly.

The elements of the claimed design are shown detached for clarity of illustration.
