### [57] CLAIM

The ornamental design for a wired edge ribbon, as shown and described.

### DESCRIPTION

FIG. 1 is a front view of a wired edge ribbon embodying the new design, the ribbon being broken away to indicate a ribbon of indeterminate length;

FIG. 2 is an end elevational view thereof, the opposite side being a mirror image thereof;

FIG. 3 is a fragmentary enlargement of the lower part of the end view shown in the circle at 3 in FIG. 2 illustrating the relative thicknesses of the ribbon and the wire;

FIG. 4 is a plan view of the ribbon, the top and bottom plan views being identical;

FIG. 5 is a rear view of the ribbon shown in FIG. 1;

FIG. 6 is a rear perspective view thereof;

FIG. 7 is a fragmentary enlargement of the lower part of the perspective view shown in the circle at 7 in FIG. 6;

FIG. 8 is a front view of a second embodiment of a wired edge ribbon, the ribbon being broken away to indicate indeterminate length;

FIG. 9 is an end elevational view thereof, the opposite end being a mirror image;

FIG. 10 is an enlargement of the lower part of the view shown in the circle at 10 in FIG. 9;

FIG. 11 is a plan view of the ribbon shown in FIG. 8, the top and bottom plan views being identical;

FIG. 12 is a rear view of the ribbon shown in FIG. 8;

FIG. 13 is an enlarged elevation of the portion of the ribbon encircled at 13 in FIG. 12;

FIG. 14 is a front perspective view thereof; and,

FIG. 15 is an enlarged illustration of the lower front corner of the perspective view encircled at 15 in FIG. 14.
