## [57] CLAIM

The ornamental design for the container for a food product, as shown and described.

## DESCRIPTION

FIG. 1 is a front elevational view of the first embodiment of the container for a food product showing my new design; each of the rear, right side and left side elevational views being a mirror image to the front elevational view;

FIG. 2 is a top plan view thereof, the bottom view appearing the same as the top plan view;

FIG. 3 is a perspective view taken from the top, front and right side of the container;

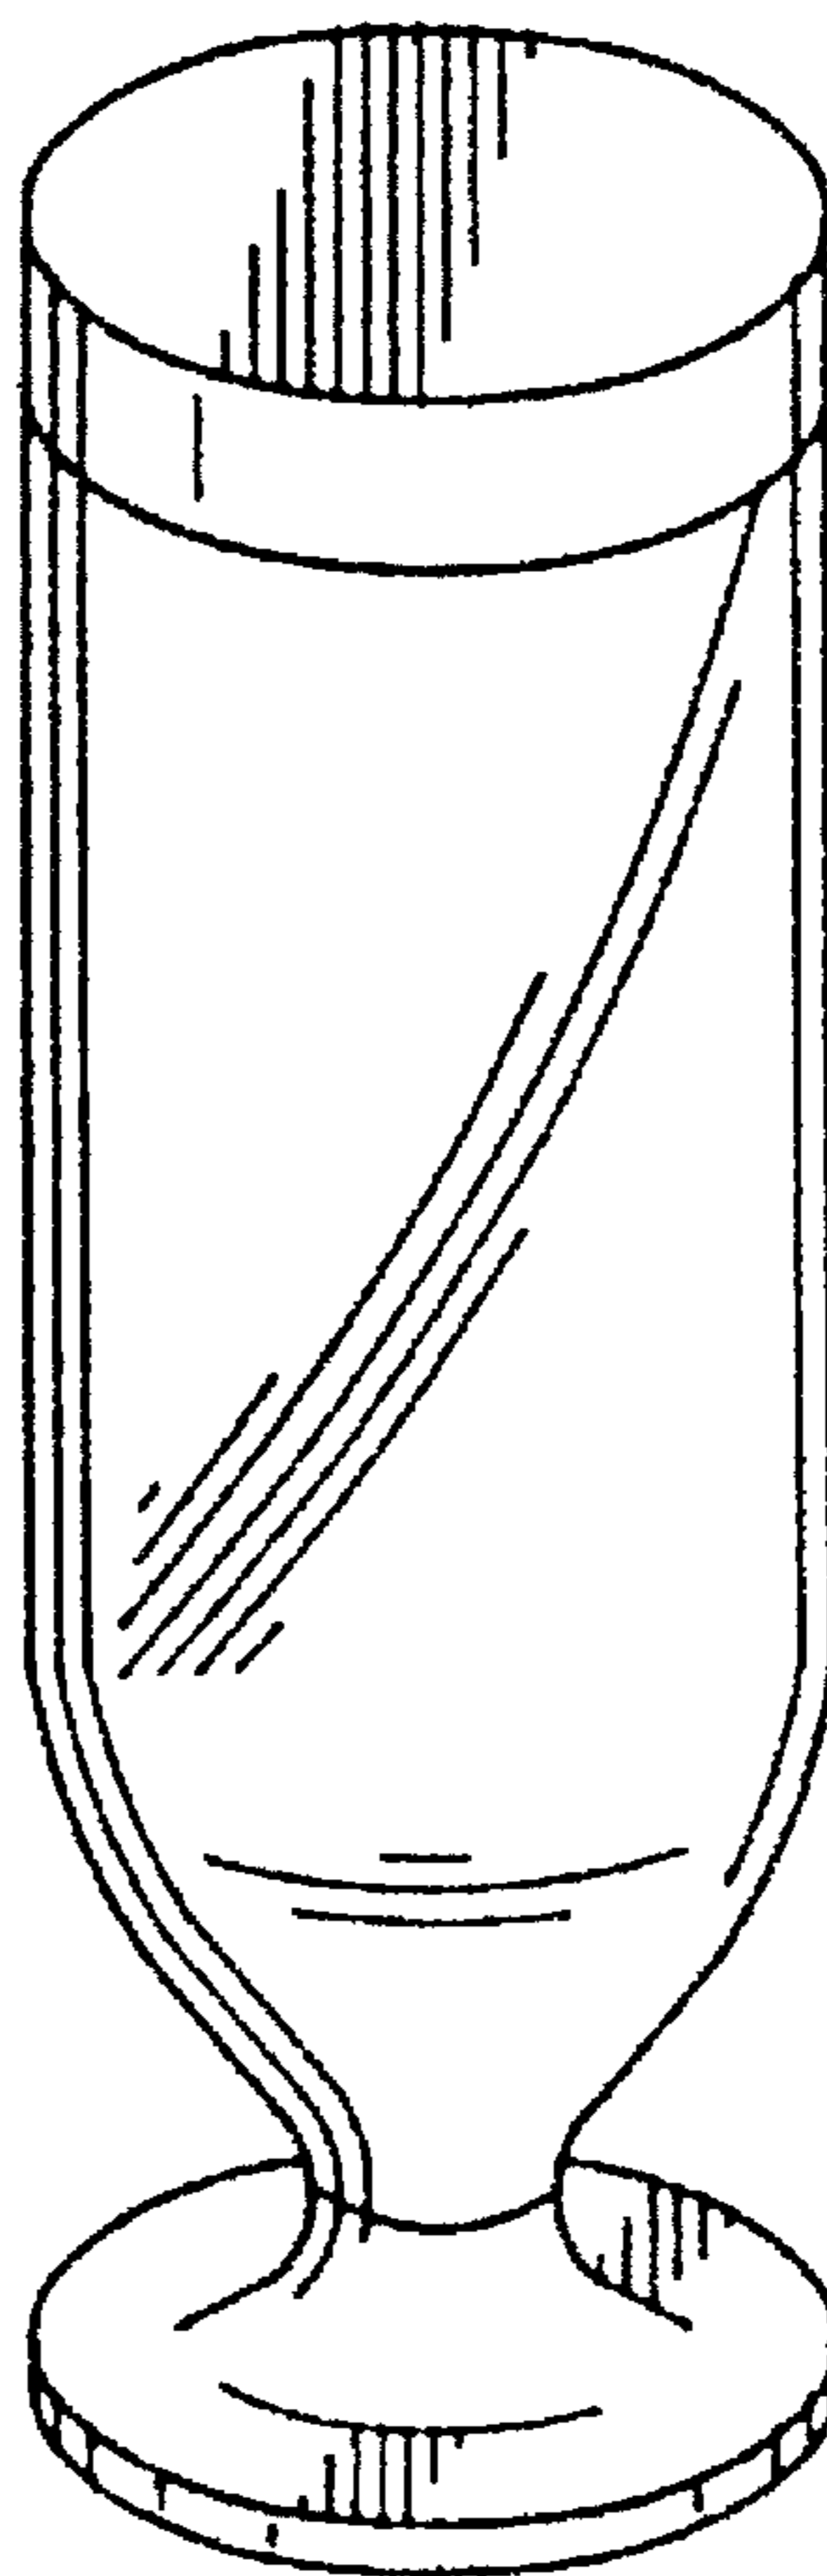

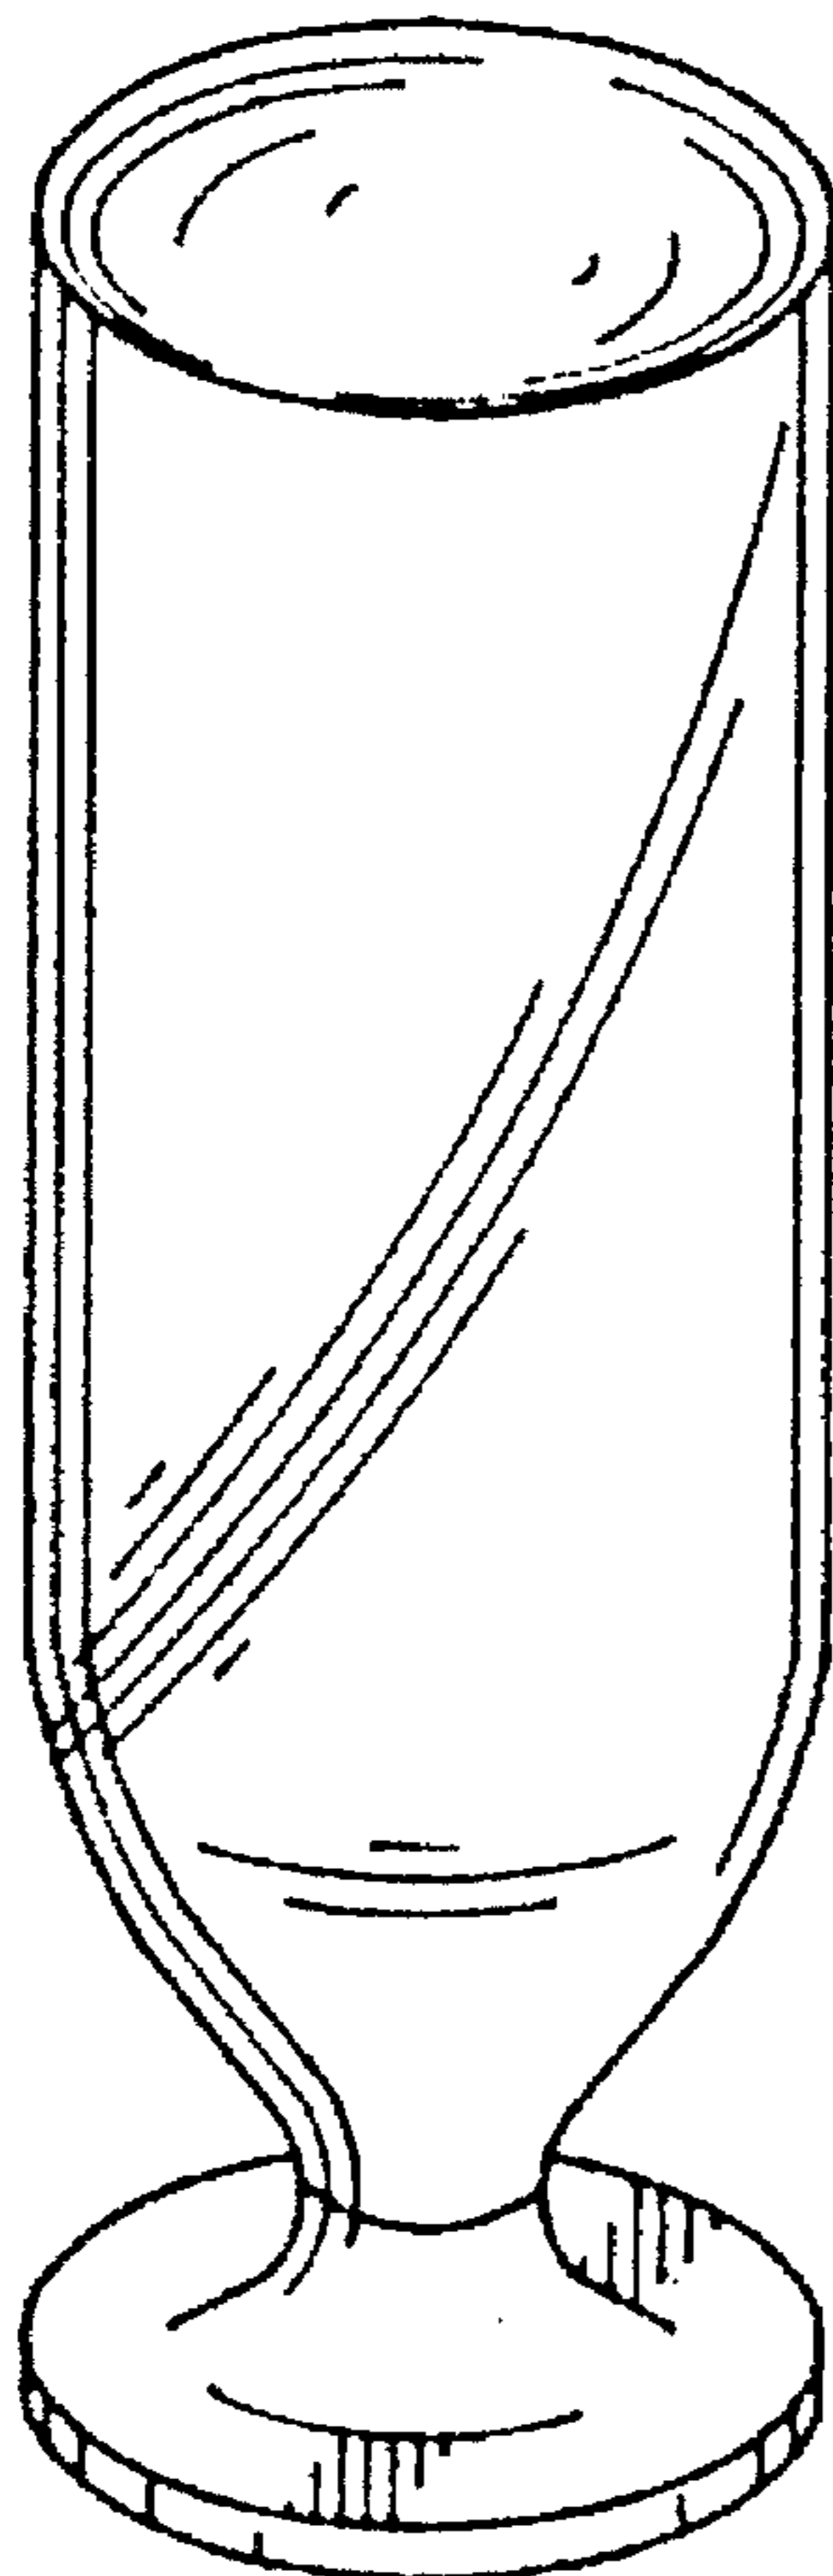

FIG. 4 is a central vertical cross sectional view of the container shown in FIG. 1;

FIG. 5 is a front elevational view of the second embodiment of the container for a food product; each of the rear, right side and left side elevational views being a mirror image to the front elevational view, and the bottom and top plan view appearing the same as the top plan view of the first embodiment shown in FIG. 2;

FIG. 6 is a perspective view taken from the top, front and right side of the container for a food product of the second embodiment; and,

FIG. 7 is a central vertical cross sectional view of the container shown in FIG. 5.
