[57] CLAIM

The ornamental design for a telephone-clock radio, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a telephone-clock radio showing our new design;

FIG. 2 is a perspective view of the clock radio unit of the telephone-clock radio of FIG. 1;

FIG. 3 is a top plan view of the clock radio unit of FIG. 2; FIG. 4 is a front elevational view of the clock radio unit of FIG. 2;

FIG. 5 is a bottom plan view of the clock radio unit of FIG. 2;

FIG. 6 is a back elevational view of the clock radio unit of FIG. 2;

FIG. 7 is a left side elevational view of the clock radio unit of FIG. 2;

FIG. 8 is a right side elevational view of the clock radio unit of FIG. 2;

FIG. 9 is a perspective view of the telephone unit of the telephone-clock radio of FIG. 1;

FIG. 10 is a front elevational view of the telephone unit of FIG. 9;

FIG. 11 is a top plan view of the telephone unit of FIG. 9; FIG. 12 is a left side elevational view of the telephone unit of FIG. 9, the right side elevational view being a mirror image thereof;

FIG. 13 is a back elevational view of the telephone unit of FIG. 9; and,

FIG. 14 is a bottom plan view of the telephone unit of FIG. 9.

The clock radio unit and the telephone unit have been shown separately in FIGS. 2-14 for convenience of illustration.
