[57] CLAIM

The ornamental design for a side milling cutter, as shown.

DESCRIPTION

FIG. 1 is a front plan view of the side milling cutter of the present invention;

FIG. 2 is a rear view of the invention looking from the side opposite the side shown in FIG. 1;

FIG. 3 is a side view of the invention looking from the right side of the side milling cutter shown in FIG. 1;

FIG. 4 is a side view of the invention looking from the right side of the side milling cutter shown in FIG. 2;

FIG. 5 is a side view of the invention looking from the bottom of the side milling cutter shown in FIG. 2;

FIG. 6 is a perspective view of the invention looking from the rear of the side milling cutter; and,

FIG. 7 is a perspective view of the invention looking from the front of the side milling cutter.
