DESCRIPTION

FIG. 1 is a perspective view of a motorcycle tire according
to the present invention showing the tread pattern and
configuration;

FIG. 2 is a front view of the tire of FIG. 1 it being understood
that the back view is the same; and,

FIG. 3 is a side view of the tire of FIG. 1 it being understood
that the other side is the same.

The tread pattern is understood to be repeated uniformly
throughout the circumference of the tire and the opposite is
the same as that shown.
