DESCRIPTION

FIG. 1 is a right side perspective view of a tire showing our new design, it being understood that the tread pattern is repeated throughout the circumference of the tire tread, the opposite side being substantially the same as that shown;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a right side elevational view of the right side thereof, the opposite side being identical thereto; and,

FIG. 4 is an enlarged fragmentary front elevational view thereof.

The broken line showing of a tire sidewall is for illustrative purposes only and forms no part of the claimed design.
