[57] CLAIM

The ornamental design for tower-format optical projector, as shown and described.

DESCRIPTION

FIG. 1 is a top, left-front-side perspective view illustrating the ornamental design of a projector constructed in accordance with our invention;
 FIG. 2 is a top, right-front-side perspective view illustrating the projector of the invention;
 FIG. 3 is a view similar to FIG. 2, except that it shows the projector of FIG. 1 with a carrying handle and a projection lid therein in elevated conditions;
 FIG. 4 is a front elevation our our claimed projector;
 FIG. 5 and 6 are side elevations of the projector of the invention taken, respectively, from the right and left sides of FIG. 4;
 FIG. 7 is a rear elevation of the projector of the invention;
 FIG. 8 is a top plan view of the projector of the invention;
 FIG. 9 is a bottom elevation of our claimed projector;
 FIG. 10 is a front elevation of the projector of the invention illustrating the same under circumstances with a projection lid therein raised; and,
 FIG. 11 is a side elevation of the claimed projector taken from the left side of FIG. 10.
