[57] CLAIM

The ornamental design for a sheet member with a plurality of protective bumpers as shown and described.

DESCRIPTION

FIG. 1 is a partial isometric view of a sheet member with a plurality of protective bumpers of the present invention;

FIG. 2 is a top view of the sheet member with a plurality of protective bumpers of FIG. 1;

FIG. 3 is a first side view of the sheet member with a plurality of protective bumpers of FIG. 1;

FIG. 4 is a second side view of the sheet member with a plurality of protective bumpers of FIG. 1; and,

FIG. 5 is a bottom view of the sheet member with a plurality of protective bumpers of FIG. 1.

The lower and right edges of the sheet member with a plurality of protective bumpers have been broken away to indicate indefinite length, and the bumper pattern is repetitive throughout the length of the article.
