FIG. 1 is a front elevational view of a container sidewall with end grip showing our new design; the rear elevational view is a mirror image thereof except for the threading on the neck which has the same appearance in the rear view as the front view;

FIG. 2 is a side elevational view showing the side with the end grip;

FIG. 3 is the opposing side elevational view, without the end grip; and,

FIG. 4 is a top plan view.
