[57] CLAIM

The ornamental design for a seal pattern on retroreflective sheeting, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a portion of a seal pattern on retroreflective sheeting showing the new seal pattern design, it being understood that the seal pattern repeats uniformly throughout the length and width of the retroreflective sheeting;
 FIG. 2 is a top plan view thereof; and,
 FIG. 3 is a bottom plan view thereof.
 The broken line boundaries in the figures indicate that the retroreflective sheeting onto which the seal pattern is applied has no specific length or width.
