[57] CLAIM

The ornamental design for a transparent extrusion with lens for enclosing a luminescent lighting tube, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of my new design for a

transparent extrusion with lens for enclosing a luminescent lighting tube;

FIG. 2 is an end elevational view of my new design for a transparent extrusion with lens for enclosing luminescent lighting tube.

FIG. 3 is a bottom plan view my new design for a transparent extrusion with lens for enclosing a luminescent lighting tube shown in FIG. 1;

FIG. 4 is a top plan view of my new design for a transparent extrusion with lens for enclosing a luminescent lighting tube shown in FIG. 1;

FIG. 5 is a right side elevation view of my new design for a transparent extrusion with lens for enclosing a luminescent lighting tube shown in FIG. 1;

FIG. 6 is a left side elevation view of my new design for a transparent extrusion with lens for enclosing a luminescent lighting tube shown in FIG. 1;

The broken lines depicting a phantom luminescent lighting tube within the longitudinal volume enclosed are not a part of the design sought to be patented. The characteristic novel features of the design resides in the fact that the extrusion is transparent.
