## [57] CLAIM

The ornamental design for a litter container, as shown and described.

## DESCRIPTION

FIG. 1 is a perspective view, as viewed from above toward the front and right side, of a litter container showing our new design, with the container barrel in its upright position; FIG. 2 is a right-side elevational view of the litter container of FIG. 1 showing the container with the container barrel in its tilt-out position;

FIG. 3 is a top-plan view of the litter container of FIG. 1 with the container barrel in its upright position;

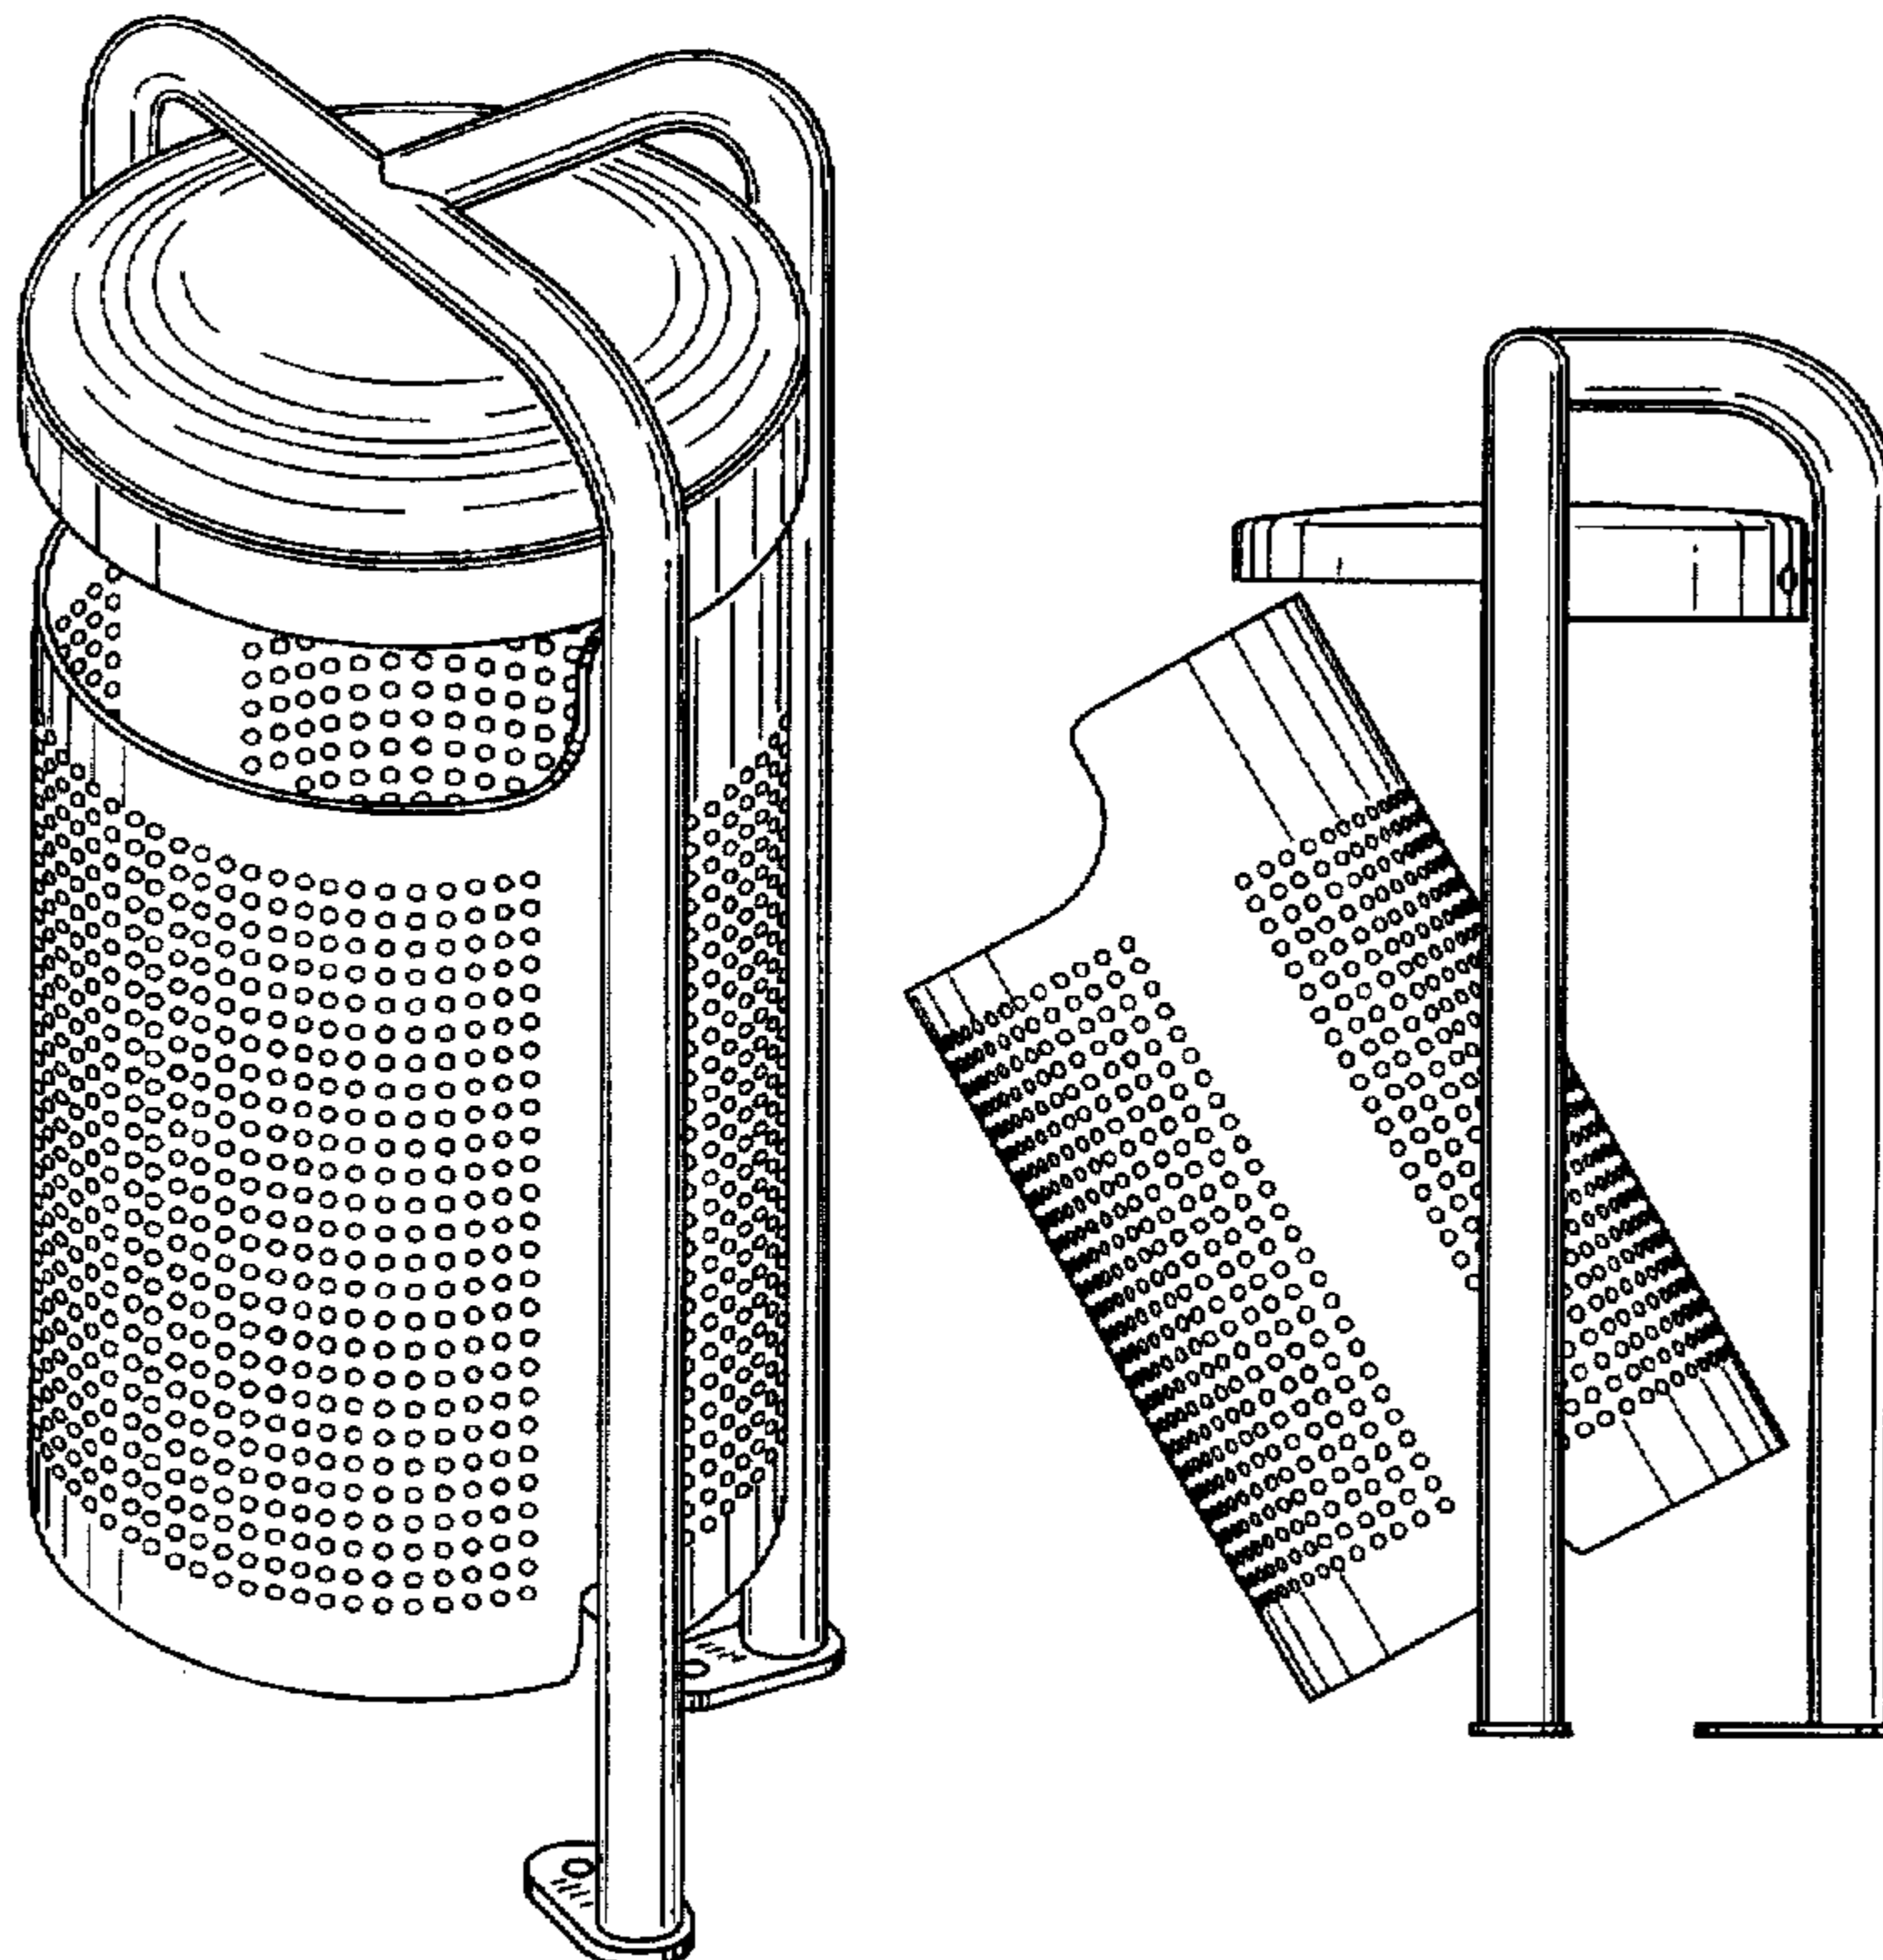

FIG. 4 is a bottom-plan view of the litter container of FIG. 1 with the container barrel in its upright position;

FIG. 5 is a front elevational view of the litter container of FIG. 1, with the container barrel in its upright position;

FIG. 6 is a right-side elevational view of the litter container of FIG. 1 showing the container barrel in its upright position, the left-side elevational view being a mirror image of the right-side elevational view; and,

FIG. 7 is a rear elevational view of the litter container of FIG. 1, with the container barrel in its upright position.
