[57] **CLAIM**

The ornamental design for a wire snake, as shown and described.

DESCRIPTION

FIG. 1 is a fragmented front elevation view of a wire snake showing my new design, fragmentation has been used for ease of illustration to indicate indeterminate length, the back elevation view being a mirror image thereof;

FIG. 2 is a top plan view thereof, with the bottom plan view being identical;

FIG. 3 is a right side elevation view thereof, with the left side elevation view being identical;

FIG. 4 is a fragmented front elevation view of a second embodiment of a wire snake according to my design, fragmentation has been used for ease of illustration to indicate indeterminate length, the back elevation view being a mirror image thereof;

FIG. 5 is a top plan view of the second embodiment, with the bottom plan view being identical;

FIG. 6 is a left side elevation view of the second embodiment, with the right side elevation view being identical to FIG. 3;

FIG. 7 is a fragmented front elevation view of a third embodiment of a wire snake, fragmentation has been used for ease of illustration to indicate indeterminate length, the back elevation view being a mirror image thereof;

FIG. 8 is a top plan view of the third embodiment, with the bottom plan view being identical; and,

FIG. 9 is a left side elevation view of the third embodiment, with the right side elevation view being identical to FIG. 3.
