[57] **CLAIM**

The ornamental design for a stepped barrel curling iron device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a stepped barrel curling iron showing our novel design in a closed position;
 FIG. 2 is a perspective view of a stepped barrel curling iron showing our novel design in an open position;
 FIG. 3 is a right side view thereof in a closed position which is symmetrical with and equivalent to a left side plan view;
 FIG. 4 is a right side view thereof in an open position which is symmetrical with and equivalent to a left side plan view;
 FIG. 5 is a top plan view thereof in a closed position;
 FIG. 6 is a top plan view thereof in an open position;
 FIG. 7 is a bottom plan view thereof in a closed position;
 FIG. 8 is a bottom plan view thereof in an open position;
 FIG. 9 is a rear view thereof in an open position;
 FIG. 10 is a front view thereof in an open position;
 FIG. 11 is a front view thereof in a closed position; and,
 FIG. 12 is a rear view thereof in a closed position.

The stepped barrel curling iron is shown which allows a person to conveniently make multiple curls of different sizes with a single curling iron. The unique shape and style of the stepped barrel curling iron allows it to be placed in a conventional Marcel iron external heater before use.
