[57] **CLAIM**

The ornamental design of a water cooler casing, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of both a left portion and a right portion of the water cooler casing of the present invention

when the casing is opened to show insides of the left portion and the right portion;

FIG. 2 is a perspective view of the inside of the left portion of the water cooler casing of the present invention;

FIG. 3 is a front elevation side view of the inside of the left portion of the invention;

FIG. 4 is a left elevation side view of the left portion of the invention;

FIG. 5 is a rear elevation side view of the left portion of the invention seen from the side opposite the side shown in FIG. 3;

FIG. 6 is a right elevation side view of the left portion of the invention seen from the side opposite the side shown in FIG. 4;

FIG. 7 is a top view of the left portion of the invention;

FIG. 8 is a bottom view of the left portion of the invention;

FIG. 9 is a perspective view of the inside of the right portion of the water cooler casing of the present invention;

FIG. 10 is an elevation side view of the inside of the right portion of the invention;

FIG. 11 is a left elevation side view of the right portion of the invention;

FIG. 12 is a front elevation side view of the right portion of the invention seen from the side opposite the side shown in FIG. 10;

FIG. 13 is a right elevation side view of the right portion of the invention seen from the side opposite the side shown in FIG. 11;

FIG. 14 is a top view of the right portion of the invention;

FIG. 15 is a bottom view of the right portion of the invention; and,

FIG. 16 is a perspective view, seen from slightly below, of both the left portion and the right portion of the water cooler casing of the present invention when the casing is closed.

The broken line showing of bottle neck connector in FIG. 16 is for illustrative purpose only and forms no part of the claim.
