[57] CLAIM

The ornamental design for the antenna for an automobile, as shown and described.

DESCRIPTION

FIG. 1 is a front view in elevation of a first embodiment of the antenna for an automobile showing our new design; FIG. 2 is a rear view in elevation of the first embodiment of the antenna for an automobile of FIG. 1; FIG. 3 is a right side view in elevation of the first embodiment of the antenna for an automobile of FIG. 1; FIG. 4 is a top plan view of the first embodiment of the antenna for an automobile of FIG. 1; FIG. 5 is a bottom plan view of the first embodiment of the antenna for an automobile of FIG. 1; FIG. 6 is a front view in elevation of a second embodiment of the antenna for an automobile of the present invention; FIG. 7 is a rear view in elevation of the second embodiment of the antenna for an automobile of FIG. 6; FIG. 8 is a right side view in elevation of the second embodiment of the antenna for an automobile of FIG. 6; FIG. 9 is a top plan view of the second embodiment of the antenna for an automobile of FIG. 6; and, FIG. 10 is a bottom plan view of the second embodiment of the antenna for an automobile of FIG. 6. The left side views of the first and second embodiments are respectively, substantially mirror images of the right sides shown in FIGS. 3 and 8.
