[57] **CLAIM**

The ornamental design for an exterior surface configuration of an automobile front light assembly, as shown and described.

DESCRIPTION

FIG. 1 is a side perspective view from the front of a left side light assembly of an exterior surface configuration of an automobile front light assembly according to our novel design;

FIG. 2 is a left side view of the assembly of FIG. 1; and, FIG. 3 is a front view of the assembly of FIG. 1.

The novel design also includes an embodiment of a right side light assembly which is mirror symmetrical to the embodiment of FIGS. 1-3 and therefore not separately illustrated.

The dash line showing of the side mirror, wheels and other features is only for showing the surrounding environment and is not a part of the claimed design.
