[57] **CLAIM**

The ornamental design for a portable radio, as shown and described.

DESCRIPTION

FIG. 1 is a front, top and right side perspective view of a first embodiment of a portable radio showing our new design; FIG. 2 is a front elevational view thereof, the claimed rear surfaces are the same in appearance as the front surfaces shown in FIG. 8 except for minor variations in proportioning that are evident from FIGS. 3-6; FIG. 3 is left side elevational view thereof; FIG. 4 is a right side elevational view thereof; FIG. 5 is a top elevational view thereof; FIG. 6 is a bottom elevational view thereof; and FIG. 7 is a front, top and right side perspective view of an second embodiment of a portable radio showing our new design; FIG. 8 is a front elevational view thereof, the claimed rear surfaces are the same in appearance except for minor variations in proportioning that are evident from FIGS. 9-12; FIG. 9 is left side elevational view thereof; FIG. 10 is a right side elevational view thereof; FIG. 11 is a top elevational view thereof; and, FIG. 12 is a bottom elevational view thereof. The broken lines shown in FIGS. 1-11 are included for the purpose of illustrating environmental elements and form no part of the claimed design. The unshaded central portion on the front of the portable radio within the multi-segmented broken lines is not part of the claimed design. That portion of the rear of the portable radio depicted by multi-segmented broken lines is also not part of the claimed design.
