### [57] CLAIM

The ornamental design of a window lock handle and escutcheon, as shown and described.

### DESCRIPTION

FIG. 1 is a perspective view of the window lock handle and escutcheon of the present invention;  
FIG. 2 is a top view of the window lock handle and escutcheon of the present invention as oriented in FIG. 1;  
FIG. 3 is a front view of the window lock handle and escutcheon of the present invention;  
FIG. 4 is a left end view, relative to FIG. 3, of the window lock handle and escutcheon of the present invention; and,  
FIG. 5 is a right end view, relative to FIG. 3, of the window lock handle and escutcheon of the present invention.  
The surface of a typical window frame within which the window lock handle and escutcheon is installed is indicated by the dashed lines in FIGS. 2, 4 and 5 and portions of the structure which extend beyond that line but which are hidden when installed in a window frame are not illustrated in the FIGURES because they do not form a portion of the claimed design.
