[57] **CLAIM**

The ornamental design for a loudspeaker, as shown and described.

DESCRIPTION

FIG. 1 is a top, front and right side isometric view of a loudspeaker illustrating one embodiment of a loudspeaker front panel assembly design in accord with the present invention;

FIG. 2 is a top plan view of the loudspeaker and front panel assembly illustrated in FIG. 1. The bottom view is similar (i.e., a mirror image).

FIG. 3 is a front elevational view of the loudspeaker illustrated in FIG. 1;

FIG. 4 is a rear elevational view of the loudspeaker illustrated in FIG. 1;

FIG. 5 is a right side elevational view of the loudspeaker and front panel assembly illustrated in FIG. 1. The left side is similar (i.e., a mirror image).

FIG. 6 is an enlarged exploded isometric view showing the top, front and right side of the loudspeaker illustrated in FIG. 1; and,

FIG. 7 is a front elevational view of an alternate embodiment of the loudspeaker illustrated in FIG. 1. The top, rear and side views of this embodiment are similar to the respective views shown in the first embodiment.

The broken line showing on FIGS. 4 and 6 is for illustrative purposes only and forms no part of the claimed design.
