[57] **CLAIM**

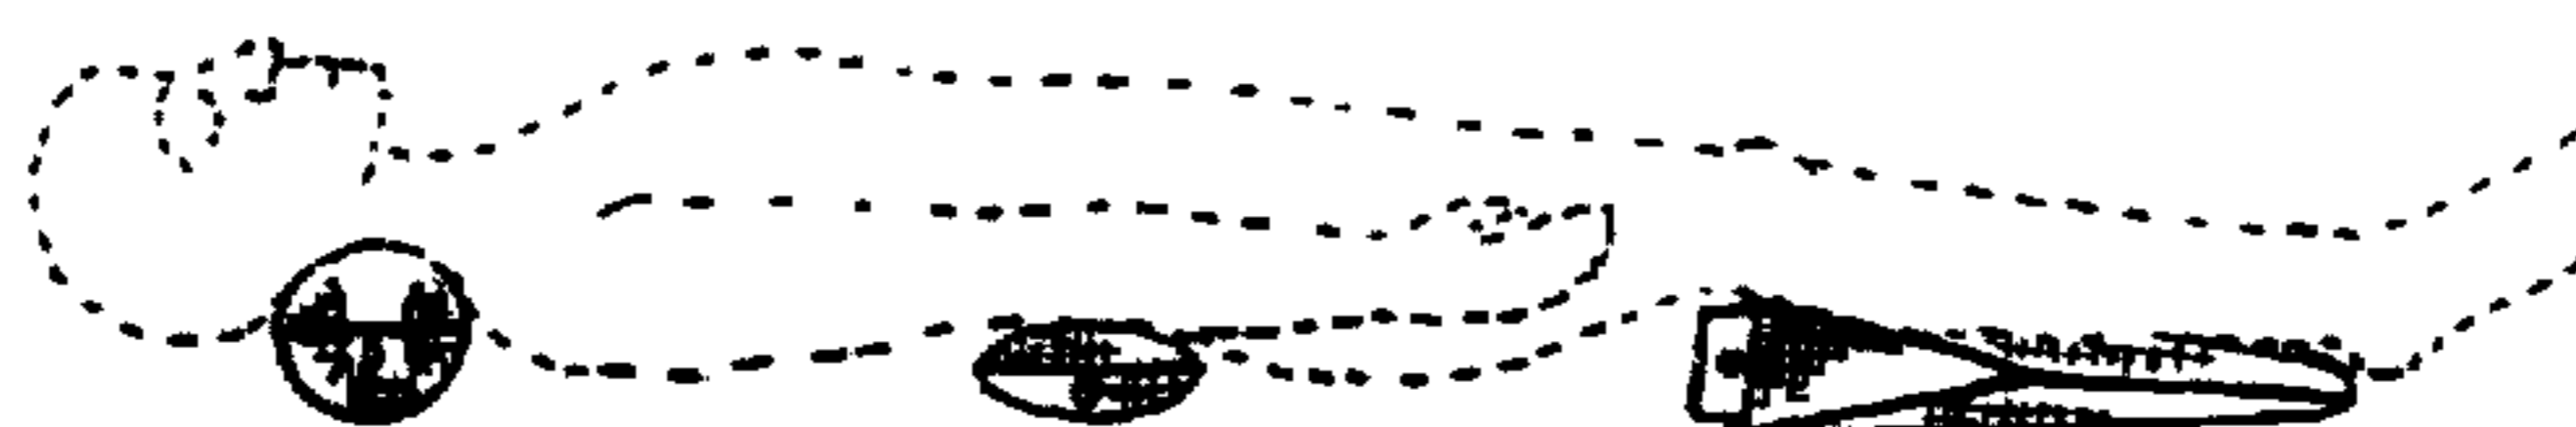

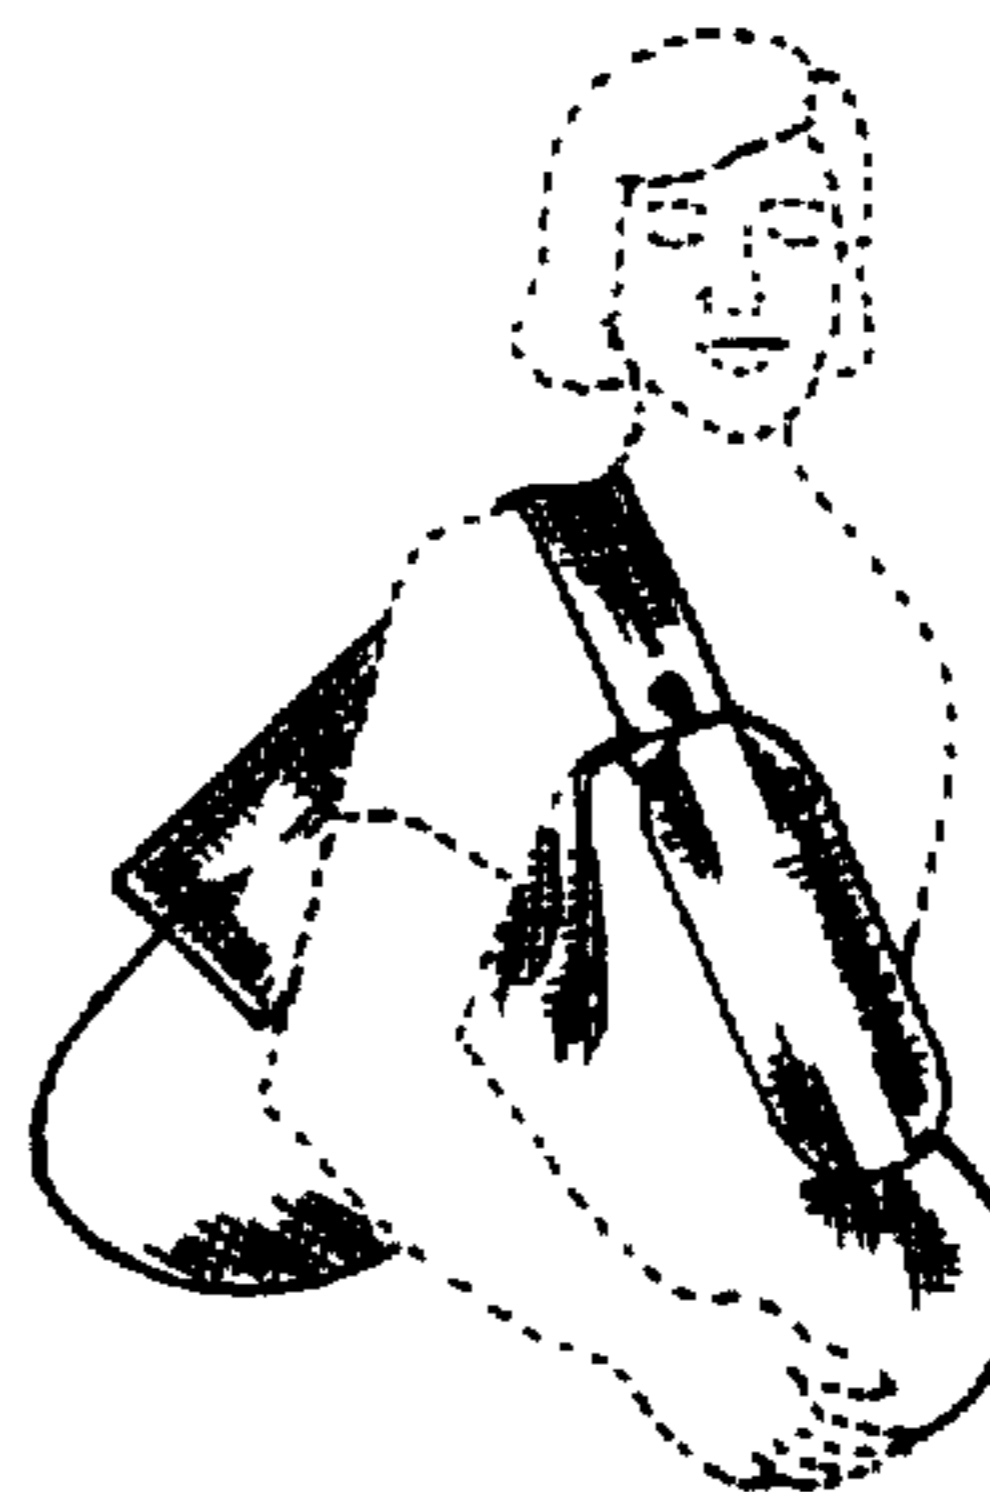

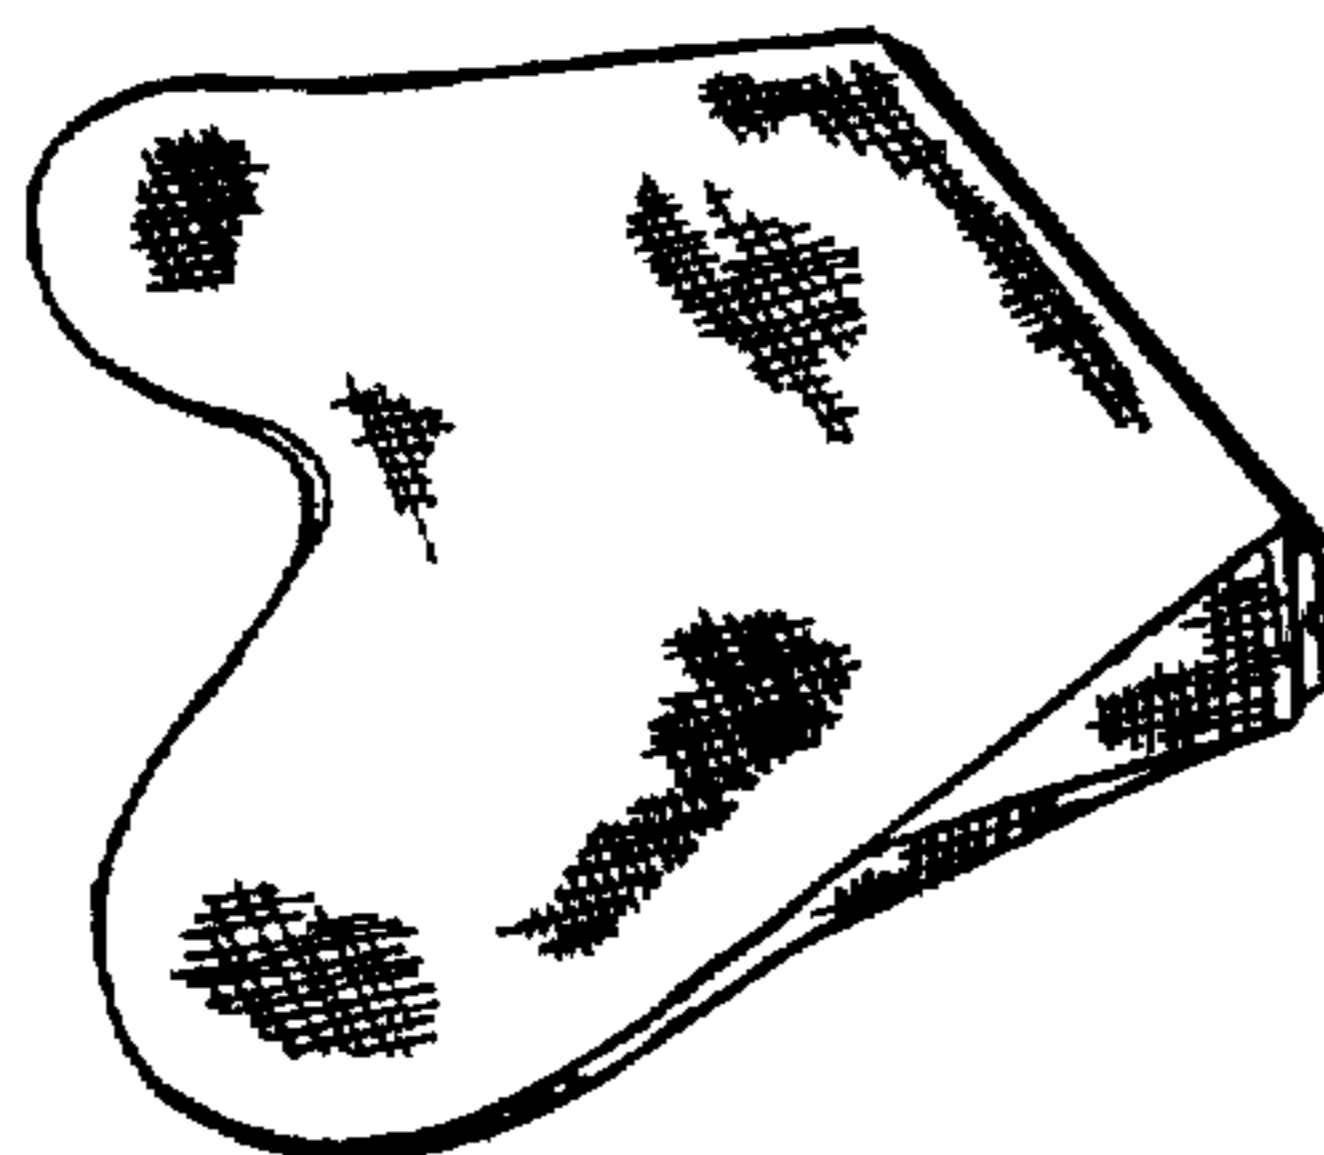

The ornamental design for a combined meditation pillow set and carrier therefor, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the primary seat of the combined meditation pillow set and carrier therefor, embodying my new design, shown separately for clarity of illustration; FIG. 2 is a top and bottom view of the primary seat;

FIG. 3 is a rear view of the primary seat;
 FIG. 4 is a side view of the primary seat, the opposite side being a mirror image of that shown;
 FIG. 5 is a perspective view of the primary seat;
 FIG. 6 is a top and bottom view of the roll cushion of the combined meditation pillow set and carrier therefor shown separately for clarity of illustration;
 FIG. 7 is a side view of the roll cushion, the opposite side being a mirror image of that shown;
 FIG. 8 is an end view of the roll cushion, the opposite end being substantially identical to that shown except for the handle;
 FIG. 9 is a top and bottom view of the ankle pad of the combined meditation seat pillow set and carrier therefor, shown separately for clarity of illustration;
 FIG. 10 is a side view of the ankle pad, the opposite side being a mirror image of that shown;
 FIG. 11 is an end view of the ankle pad, the opposite end being substantially identical to that shown except for the handle;
 FIG. 12 is a perspective view of the primary seat of the combined meditation pillow set and carrier therefor, shown separately for clarity of illustration, on a reduced scale in the travel mode;
 FIG. 13 is a perspective view of the ankle pad and primary seat of the combined meditation pillow set and carrier therefor shown separately for clarity of illustration on a reduced scale when fully deployed;
 FIG. 14 is a perspective view of the three components of the combined meditation pillow set and carrier therefor on a reduced scale when fully deployed in the supine position; and,
 FIG. 15 is a perspective view of the three components of the combined meditation pillow set and carrier therefor on a reduced scale when in travel mode.
 The cross-hatching represents conventional fabric and is understood to extend throughout the areas represented.
 The broken line showing of a person in FIGS. 12-15 is for illustrative purposes only and forms no part of the claimed design.
