#### CLAIM

The ornamental design for an automobile rear quarter panel exterior surface, as shown and described.

#### DESCRIPTION

FIG. 1 is a top and side perspective view of a left side automobile rear quarter panel exterior surface showing an embodiment of our novel design for the left side of an automobile;

FIG. 2 is a side elevational view of the automobile rear quarter panel exterior surface of FIG. 1 according to our novel design;

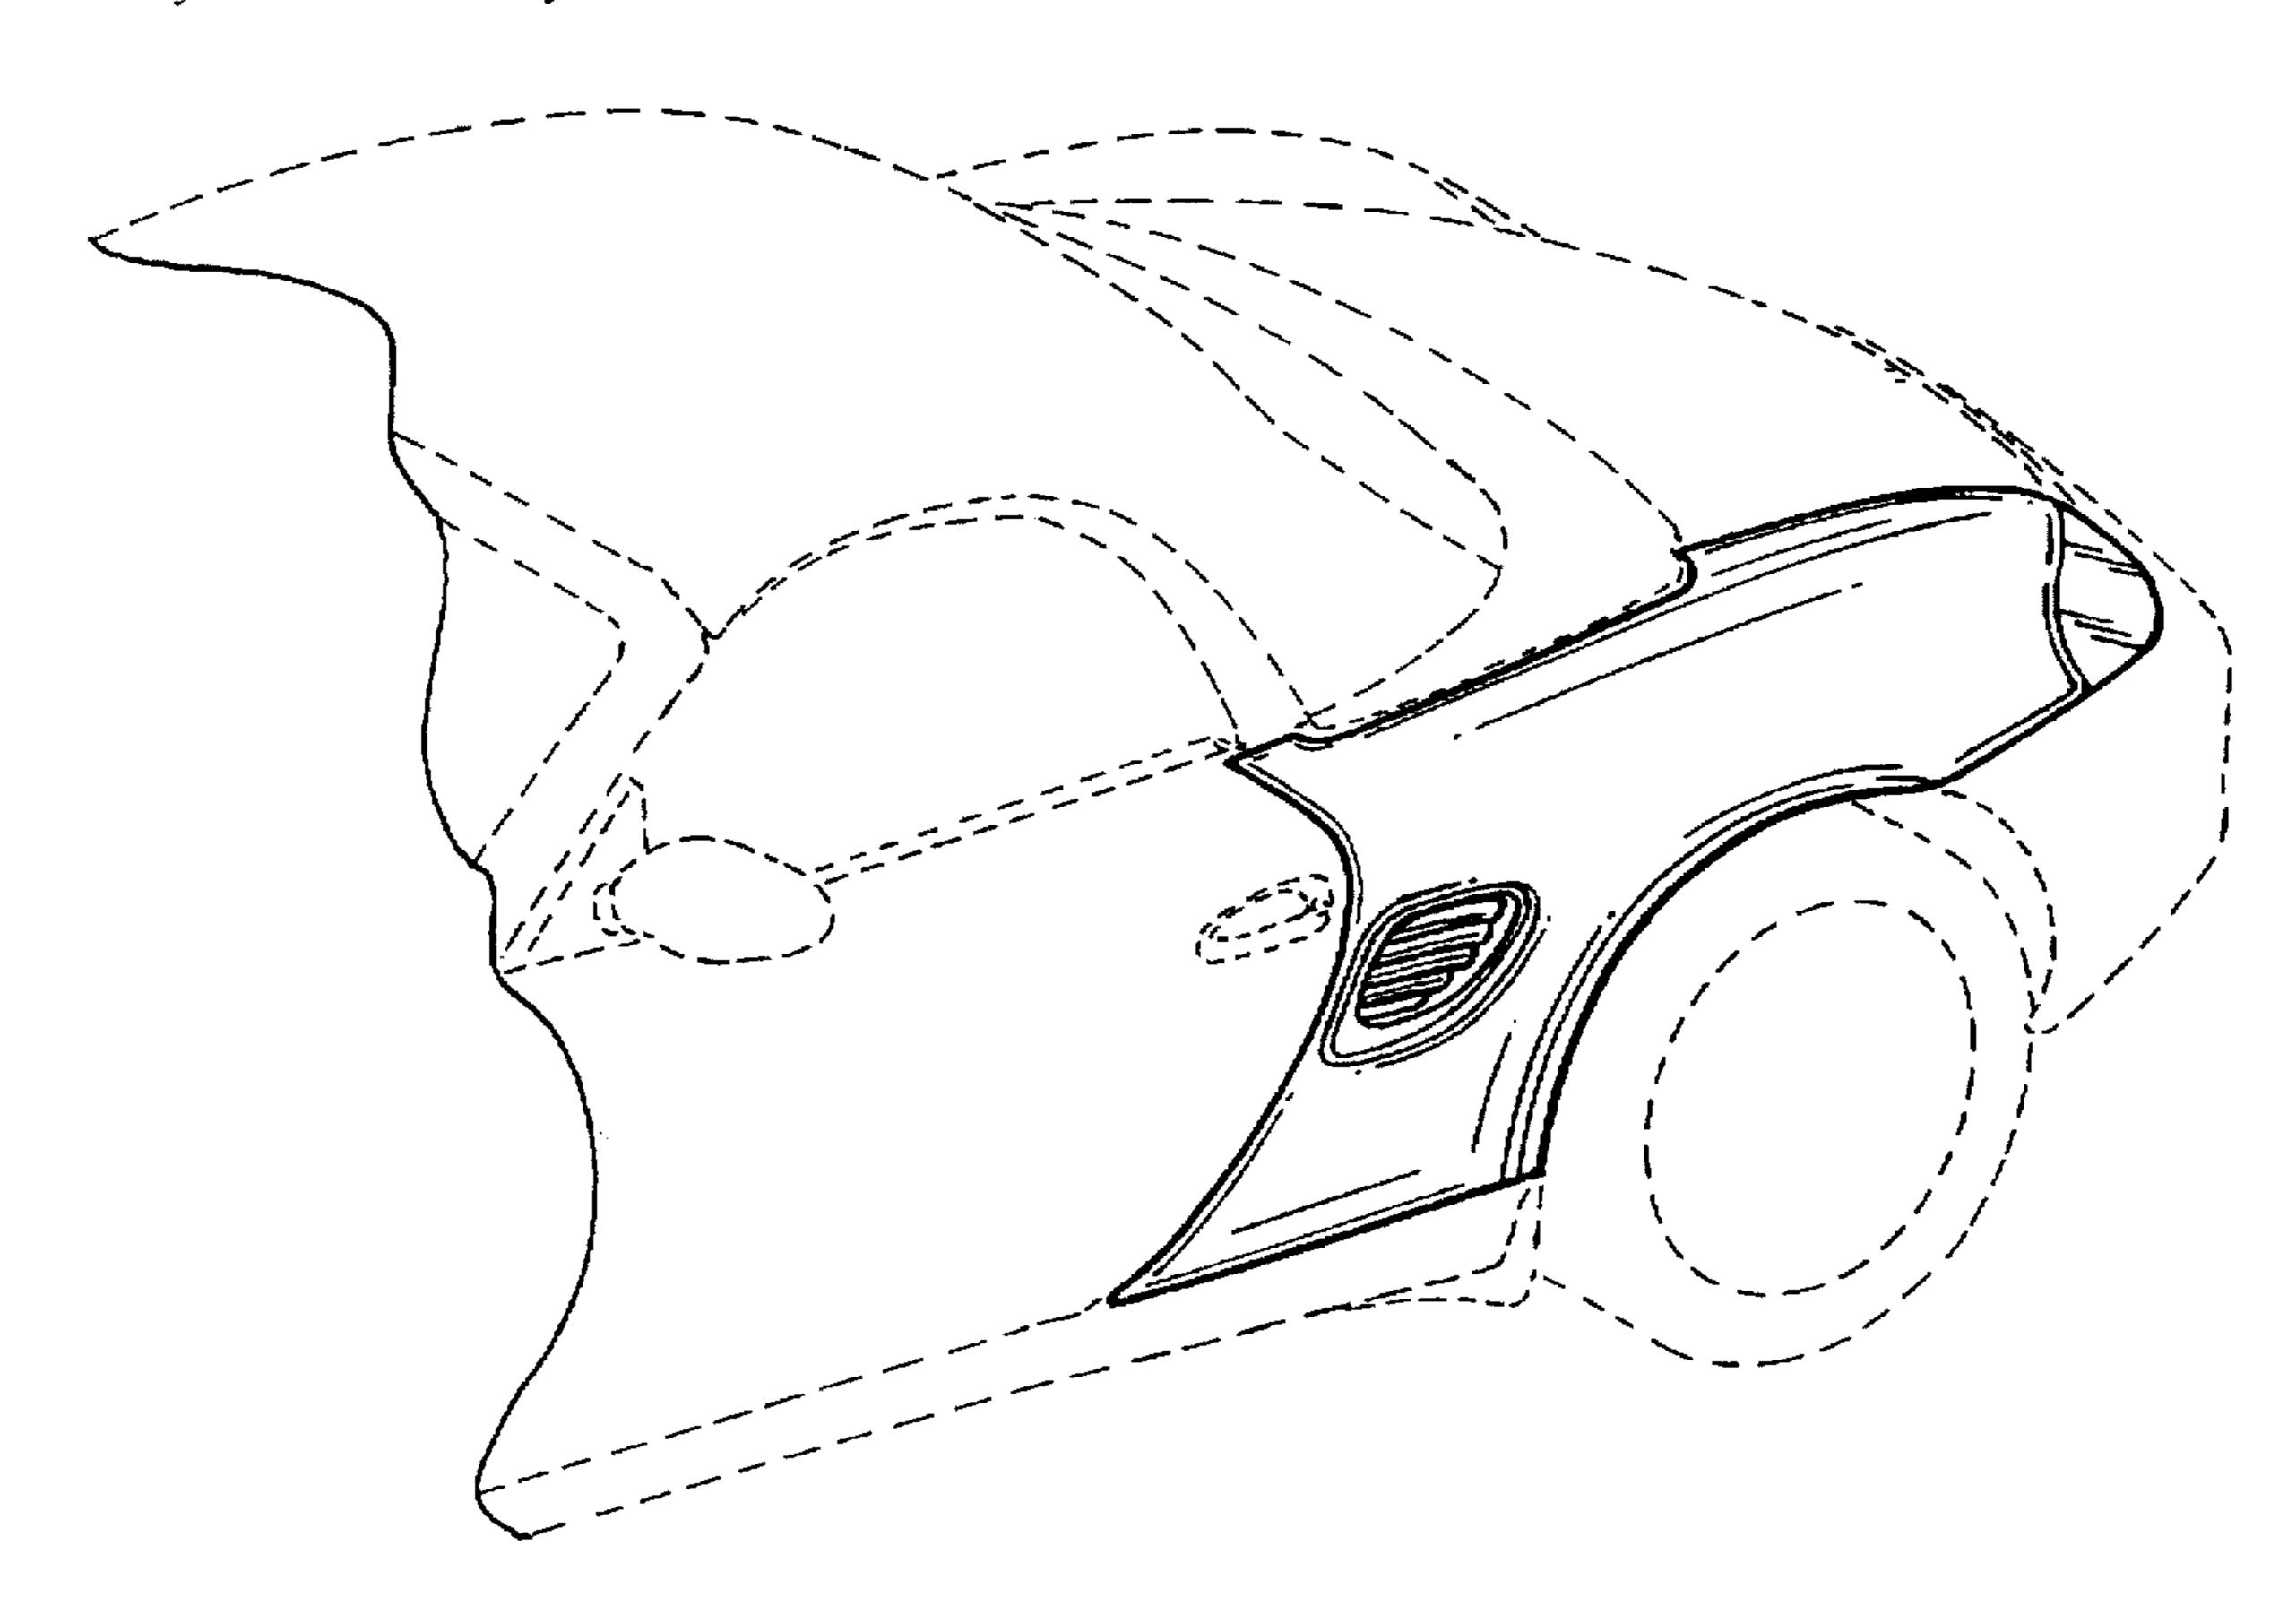

FIG. 3 is a rear elevational view of the automobile rear quarter panel exterior surface of FIG. 1 according to our novel design; and,

FIG. 4 is a rear elevational views of a right side of the automobile rear quarter panel exterior surface showing another embodiment of our novel design for the right side of an automobile.

The design contemplates mirror symmetrical left and right configurations for the respective embodiments of FIG. 1-3 and FIG. 4.

The dash line showing of adjacent automobile parts is only for showing the surrounding environment and is not part of the claimed design.
