[57] **CLAIM**

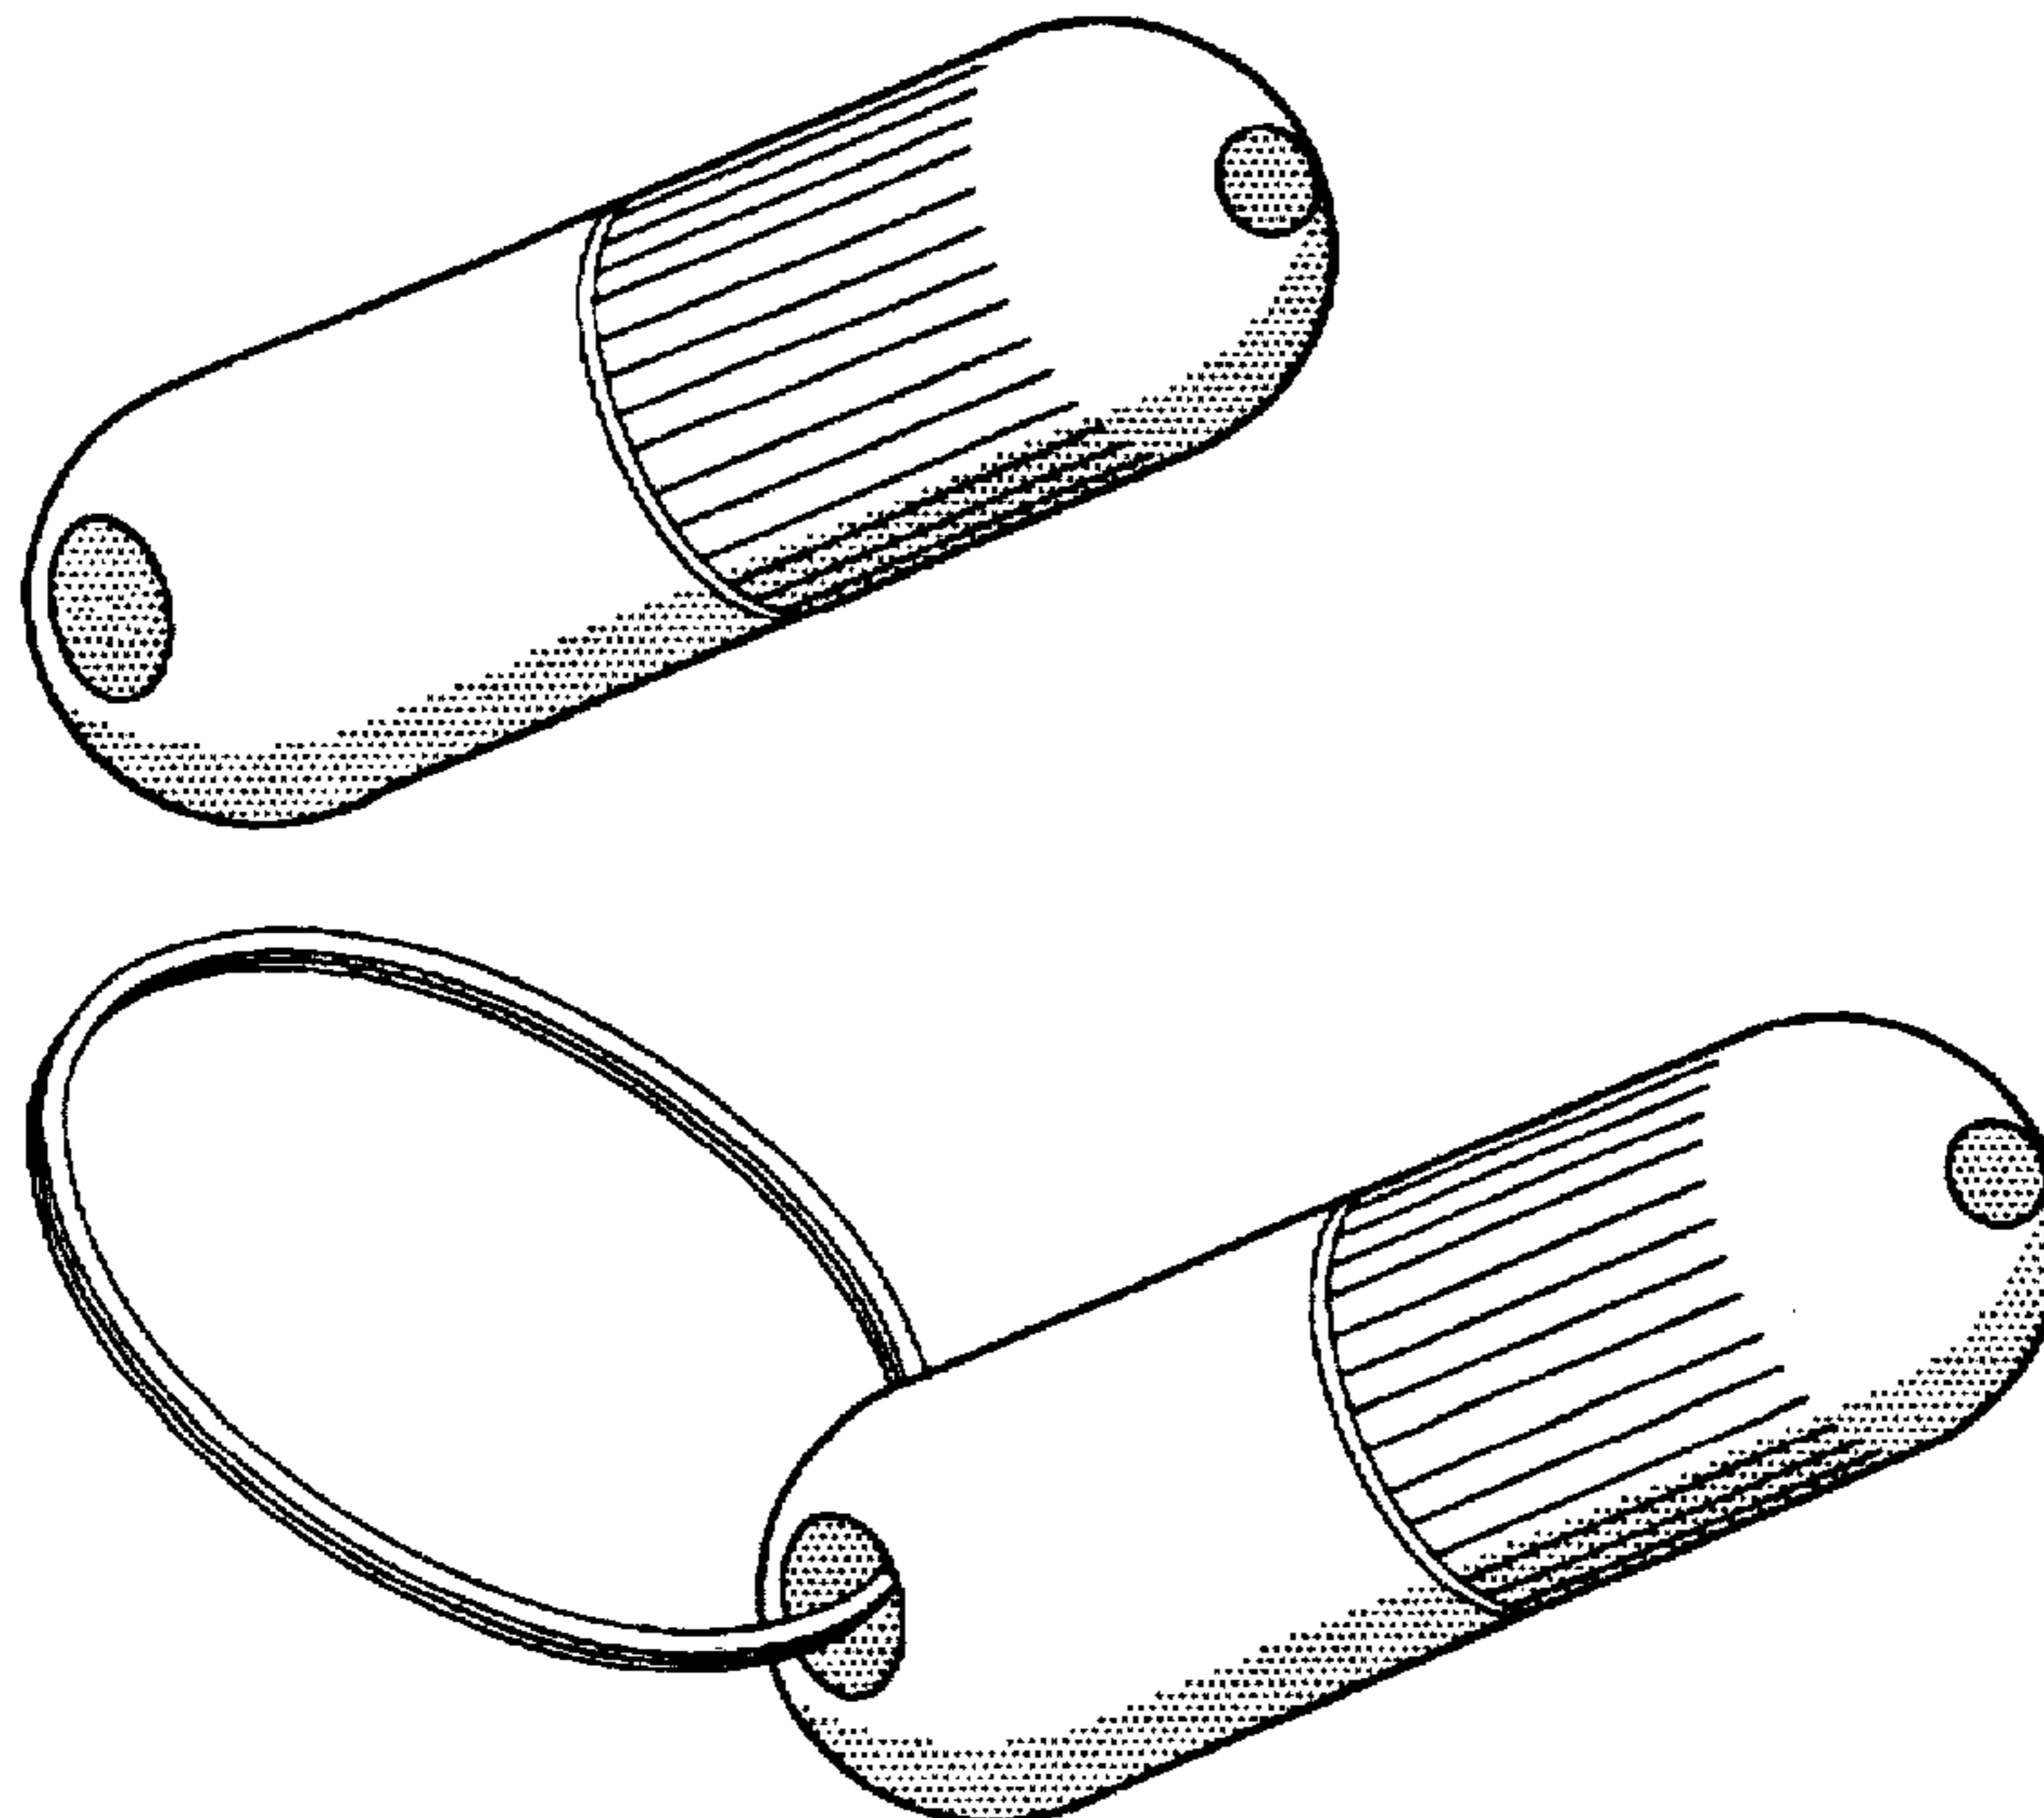

The ornamental design for the cigar boring device, as shown  
and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a cigar boring device  
showing my new design;  
FIG. 2 is a front elevational view thereof, the rear elevational  
view being the same as said front elevational view;  
FIG. 3 is a top plan view thereof, the bottom plan view being  
the same as said top plan view;

FIG. 4 is a right side elevational view thereof;  
FIG. 5 is a left side elevational view thereof;  
FIG. 6 is a front elevational view of a second embodiment  
of my design, the rear elevational view being the same as  
said front elevational view, and the top and bottom plan  
views being the same as in FIG. 3 absent the surface  
ornamentation on the right section thereof;  
FIG. 7 is a right side elevational view of said second  
embodiment, the left side elevational view being the same as  
shown in FIG. 5;  
FIG. 8 is a perspective view of an open cigar boring device  
showing my new design in the first embodiment;  
FIG. 9 is a front elevational view thereof, the rear elevational  
view being the same as said front elevational view, and the  
top and bottom plan views of the right section thereof being  
the same as said front elevational view, and the top and  
bottom plan views of said left section thereof being the same  
as the left section of FIG. 3;  
FIG. 10 is a right side elevational view of said left section  
thereof, and the left side elevational view being the same as  
shown in FIG. 5;  
FIG. 11 is a left side elevational view of said right section  
thereof, and the right side elevational view thereof being the  
same as shown in FIG. 4;  
FIG. 12 shows the cigar boring device of the first embodi-  
ment with a ring attached thereto;  
FIG. 13 shows the open cigar boring device of the first  
embodiment with a ring attached thereto;  
FIG. 14 shows the cigar boring device of the second  
embodiment with a ring attached thereto; and,  
FIG. 15 shows the open cigar boring device of the second  
embodiment with a ring attached thereto.  
The exploded views of the claimed design are shown for  
convenience of illustration.
