## [57] CLAIM

The ornamental design for a flashlight, as shown and described.

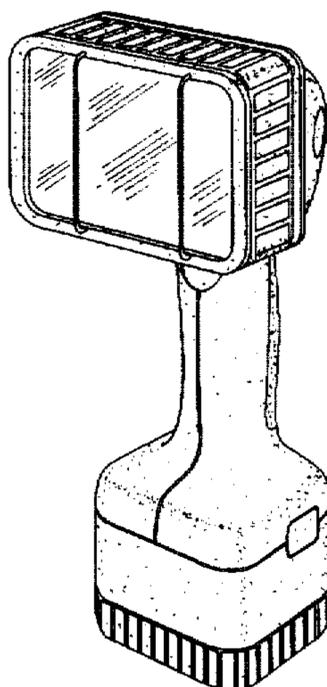

## DESCRIPTION

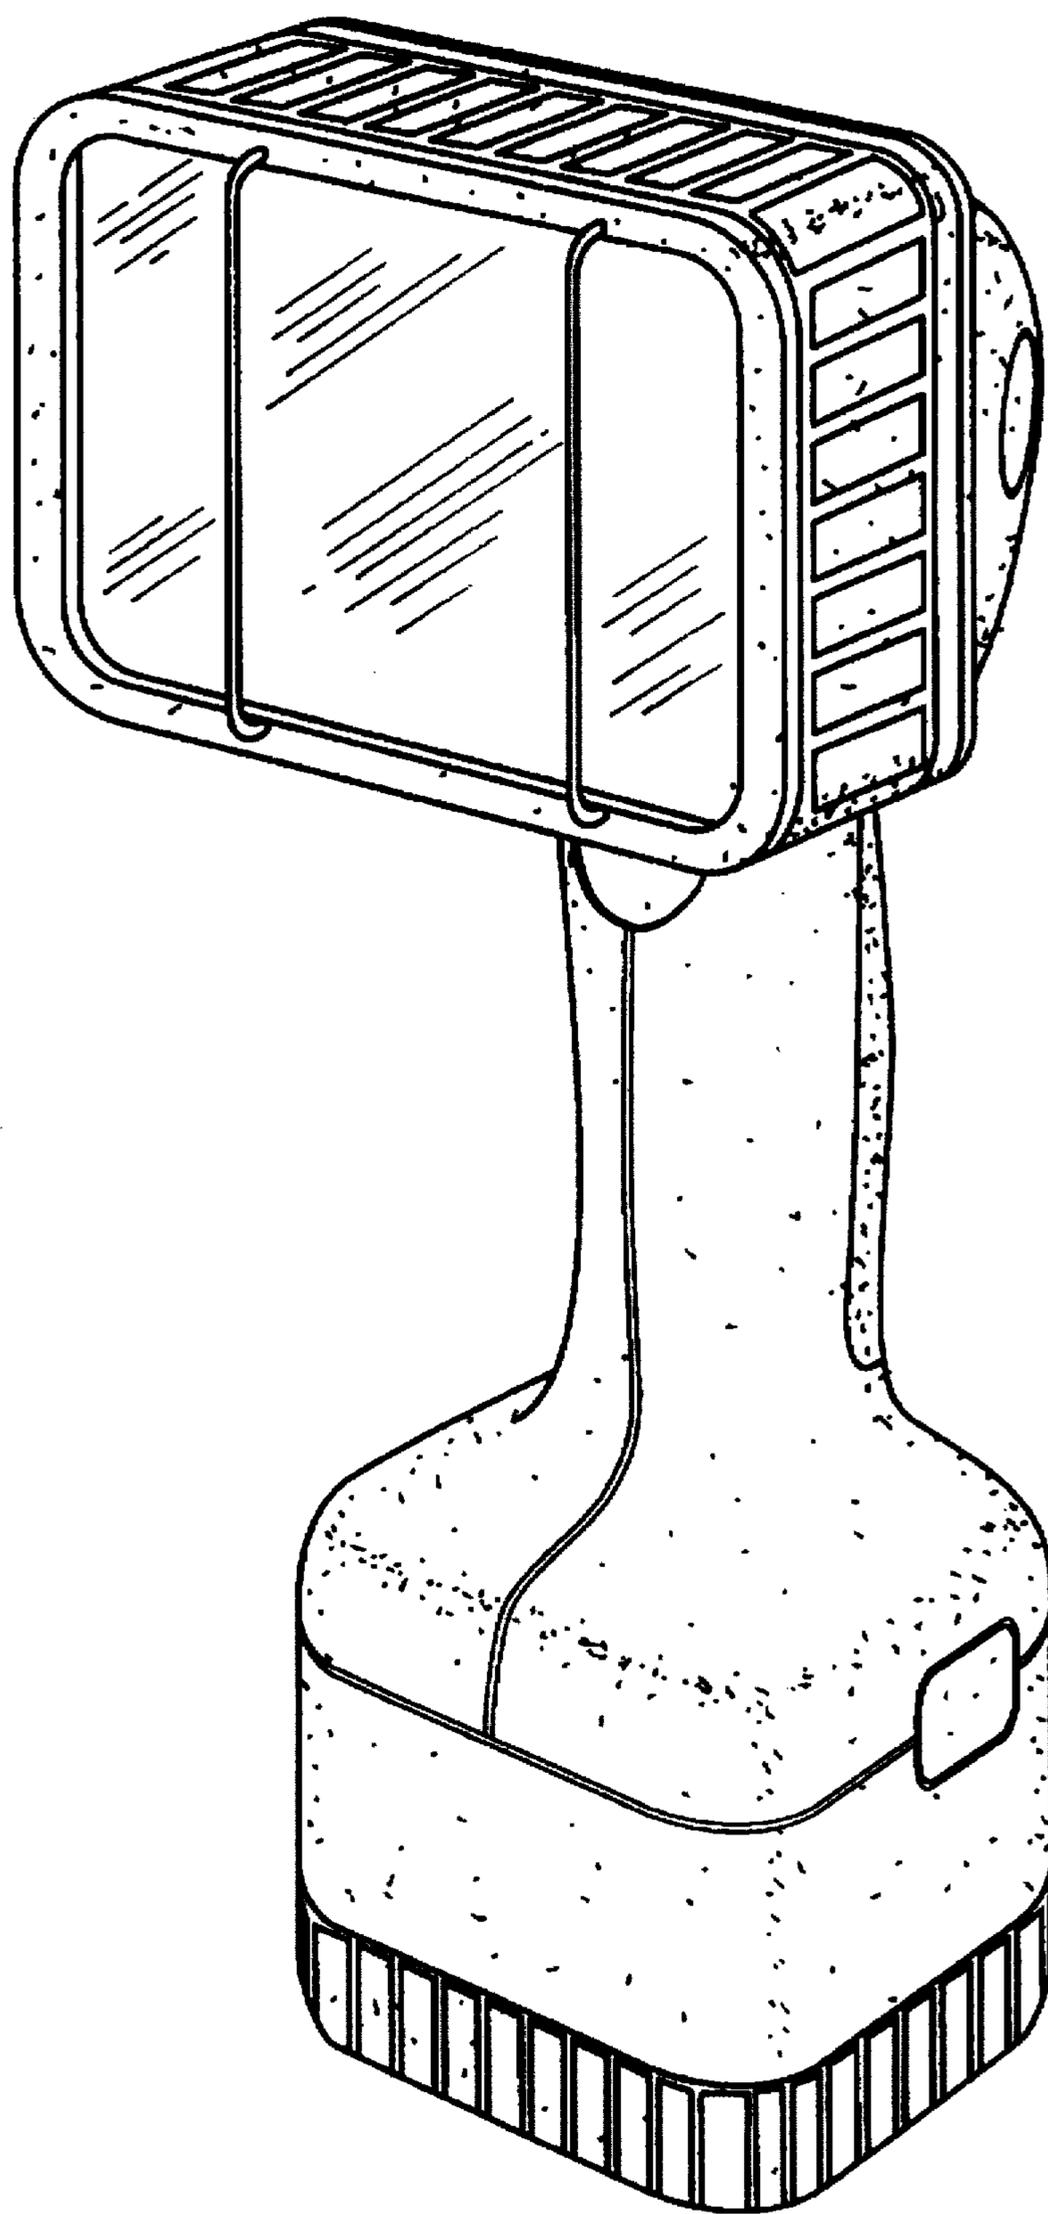

FIG. 1 is a perspective view of a first embodiment thereof, with the flashlight head in a first position;  
 FIG. 2 is a front elevational view of the first embodiment thereof, with the flashlight head in the first position;  
 FIG. 3 is a rear elevational view of the first embodiment thereof, with the flashlight head in the first position;  
 FIG. 4 is a left side elevational view of the first embodiment thereof, with the flashlight head in the first position;  
 FIG. 5 is a right side elevational view of the first embodiment thereof, with the flashlight head in the first position;

FIG. 6 is a top plan view of the first embodiment thereof, with the flashlight head in the first position;  
 FIG. 7 is a bottom plan view of the first embodiment thereof, with the flashlight head in the first position;  
 FIG. 8 is a left side elevational view of the first embodiment thereof, with the flashlight head in a second position; and  
 FIG. 9 is a left side elevational view of the first embodiment thereof, with the flashlight head in a third position;  
 FIG. 10 is a perspective view of a second embodiment thereof, with the flashlight head in a first position;  
 FIG. 11 is a front elevational view of the second embodiment thereof, with the flashlight head in the first position;  
 FIG. 12 is a rear elevational view of the second embodiment thereof, with the flashlight head in the first position;  
 FIG. 13 is a right side elevational view of the second embodiment thereof, with the flashlight head in the first position;  
 FIG. 14 is a left side elevational view of the second embodiment thereof, with the flashlight head in the first position;  
 FIG. 15 is a top plan view of the second embodiment thereof, with the flashlight head in the first position;  
 FIG. 16 is a bottom plan view of the second embodiment thereof, with the flashlight head in the first position;  
 FIG. 17 is a left side elevational view of the second embodiment thereof, with the flashlight head in a second position; and  
 FIG. 18 is a left side elevational view of the second embodiment thereof, with the flashlight head in a third position; and  
 FIG. 19 is a perspective view of a third embodiment thereof, with the flashlight head in the first position.

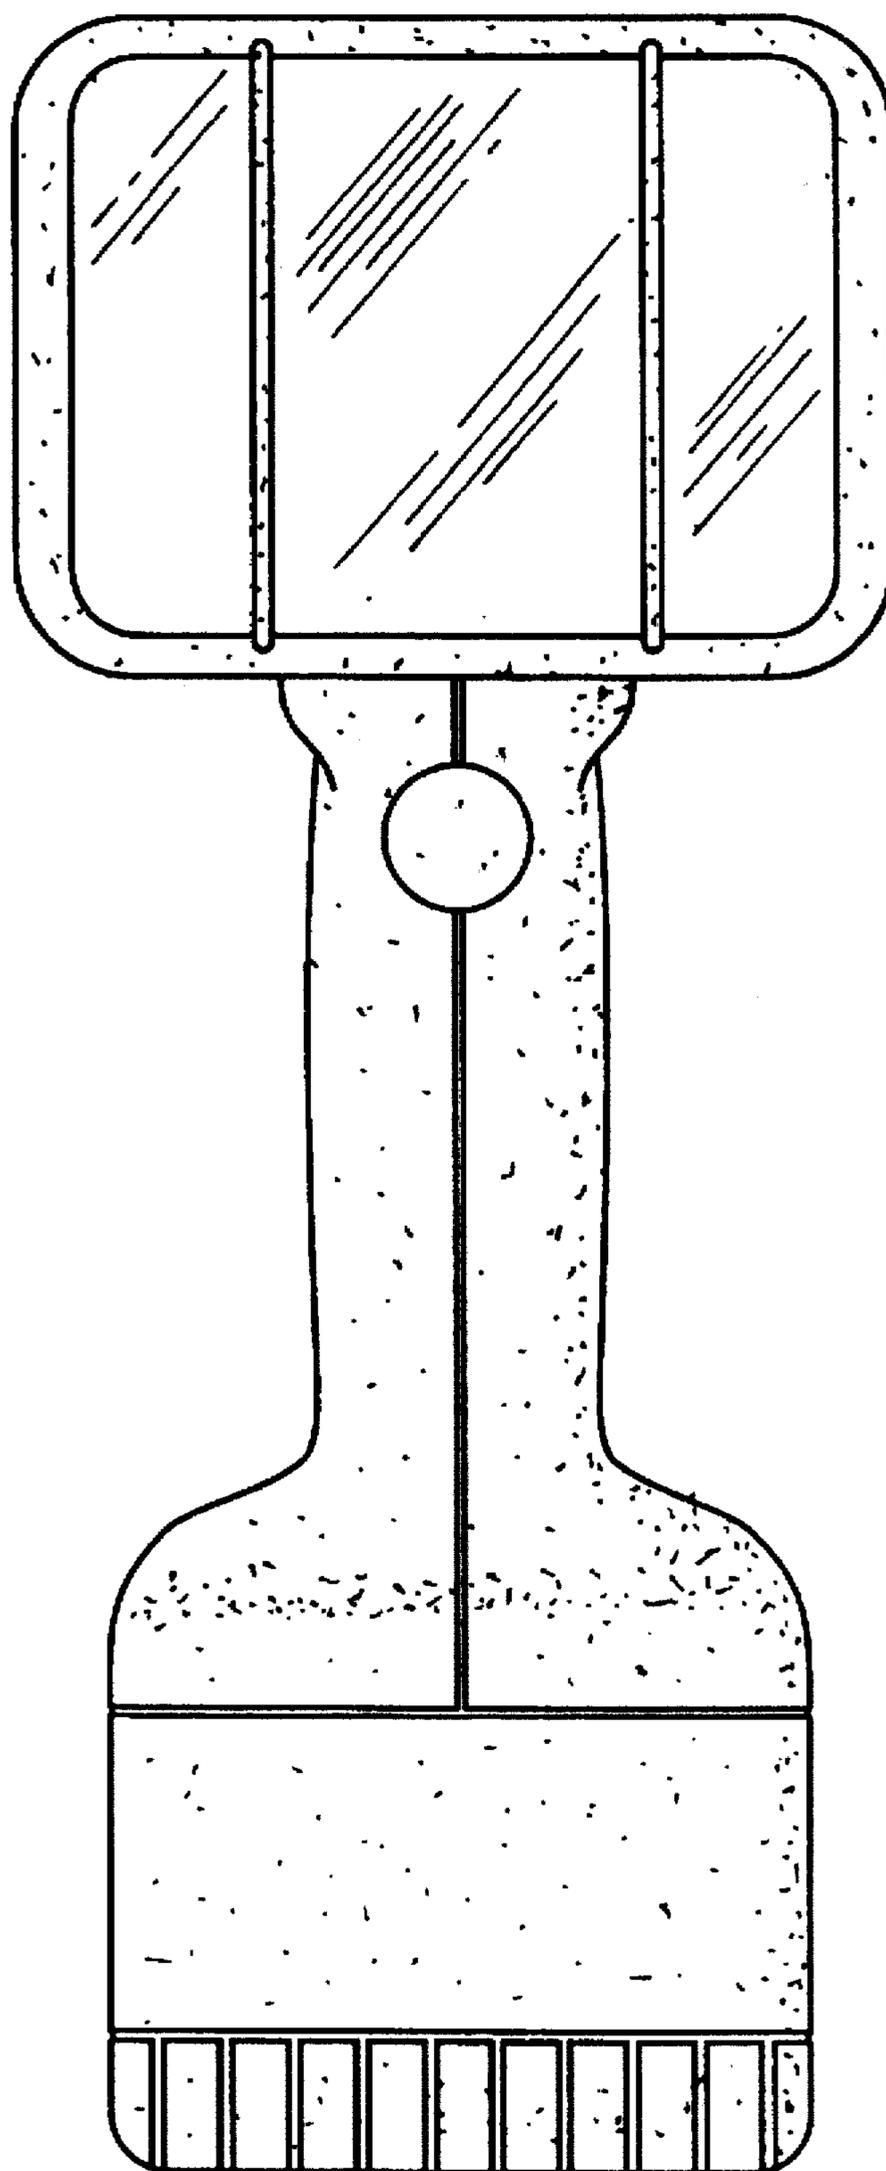

The rear elevational view, left side elevational view, right side elevational view, top plan view, bottom plan view, and views of the flashlight head in second and third positions of the third embodiment have been omitted since they are symmetrical with the views illustrated in FIGS. 12-18, respectively. The front elevational view of the third embodiment has been omitted because this view is immediately apparent from the perspective view illustrated in FIG. 19.
